Fri.	Friday.	Pkt.	Packet.
A.	Afternoon.	Prev.	Previous.

OPTIONAL OR COMPULSORY PREPAYMENT.

The letter *v* prefixed to a division (as that of letters) indicates that in such case prepayment is voluntary. In other cases prepayment is compulsory. When a letter or newspaper, addressed to go by a route that requires prepayment, is posted unpaid, and there is some other route where prepayment is not required, it is forwarded by that route; but if there be none, it is sent to the Returned Letter Office, to be returned to the writer.

DISTANCE TO WHICH THE POSTAGE CARRIES THE LETTER, &c.

The letter *a* prefixed to any division shows that the postage there entered does not carry the letter, &c., from the place where it is posted in the United Kingdom entirely free to its place of destination, but that it is liable to an *additional* charge upon delivery.

MAILS WHEN DUE.

The dates given in the Table are those when the Mails are due in Glasgow.

MOLDAVIA AND WALLACHIA VIA BELGIUM.

In the case of letters forwarded via Belgium for other places in Moldavia than Botuschany, Galatz, and Jassy, or for other places in Wallachia than Bucharest and Ibraila, the writers should specify in the address to which of the above towns they desire their letters to be forwarded, and the rate as far as that town *must then be paid in advance*.

COLONIAL AND FOREIGN POSTAGE;

Being the RATES of POSTAGE chargeable in the UNITED KINGDOM upon LETTERS, NEWSPAPERS, &c., addressed to BRITISH COLONIES and FOREIGN COUNTRIES.

POSTAGE STAMPS, &c.

Prepayment of Inland Letters, &c., must be by Stamps.

RATES OF POSTAGE.

*Inland Letters.**

1. The rate of postage on all inland letters is regulated by weight, irrespective of distance, and (with the exception afterwards mentioned) is as follows:—

If paid in advance.

Letter weighing not more than $\frac{1}{2}$ oz.,.....	1d.
Letter weighing more than $\frac{1}{2}$ oz, but not exceeding 1 oz,.....	2d.
Letter weighing more than 1 oz, but not more than 2 oz,.....	4d.
Letter weighing more than 2 oz, but not 3 oz,.....	6d.
and so on; twopence being charged for every additional ounce.	

2. As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were prepaid. Unless three quarters, at least, of the postage of a letter weighing more than 4 oz. be prepaid, the letter is not forwarded; but notice of its detention is given to the sender, or when that is not practicable, to the person to whom the letter is addressed.

Colonial and Foreign Letters.

3. The rates of postage on letters to foreign countries and the colonies are entered in the Table of Colonial and Foreign Postage at pages 5-17.

Addresses to the Queen and Petitions to Parliament.

4. Petitions and addresses to her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or in covers open at the sides. No letter or other inclosure, however, must be inserted, and if one be found, such inclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

Newspaper and other periodical Publications bearing the Newspaper Stamp.

5. Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

6. All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear

an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may be transmitted and re-transmitted through the post within the United Kingdom free of postage under the following regulations, viz.:—

1st. They are subject to the same restrictions with regard to the number of sheets and superficial extent as were formerly applicable only to newspapers properly so called. These restrictions are shown in the following table:—

Amount of Stamps Impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial extent of Letterpress on one side.
One Penny - - -	Two - - -	2,295 inches.
Three Halfpence	Three - - -	3,443 "
Twopence - - -	Four - - -	4,591 "

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value of at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside, except that where there are more than two publications in the same cover it will be considered sufficient if the stamps be so arranged that they can readily be examined.

5th. It must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together, nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within fifteen days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends.

8th. It must contain no inclosure.

9th. It must have no writing or other mark thereon, but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it. Thus, if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off (obliteration not being sufficient), otherwise the paper will be charged as an unpaid letter.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it will become liable to a postage of one penny, which must be prepaid by affixing a postage stamp.

11th. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it will be charged 2d.

12th. In case of any other irregularity the publication is dealt with as an unpaid letter.

* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands. If the weight be exceeded to the smallest extent, even though the balance be merely turned, the letter becomes liable to a higher postage. The same rule applies to letters going abroad. To provide, therefore, for errors in scales, &c., it is well to allow a little margin, or to pay the postage of the next greater weight.

13th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.

14th. Stamped publications can also be forwarded under the regulations of the book post; but when so sent the impressed stamp does not count as any part of the postage.

7. Newspapers sent abroad are liable to the same regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except as regards size, and that, before going abroad, the name of the newspaper must have been registered at the General Post Office, and that, instead of requiring to have an impressed stamp (by which is meant the stamp specially used for newspapers), each newspaper, if sent to a foreign country, is liable to the postage entered in the Table of Colonial and Foreign Postage, and if sent to a British colony, to a postage of a 1d., with an addition (as shown in the Table of Colonial and Foreign Postage), when the newspaper has to pass through a foreign country; this additional postage being also payable in stamps *only*.* In all cases of newspapers going abroad the impressed stamp stands for nothing. Publications registered for transmission abroad, although not strictly newspapers, are in all respects treated as such, as far as transmission by the British office is concerned.

8. According to information which has been officially communicated, it is forbidden to introduce into Russia through the post, political newspapers, in covers open at the ends and sides; and the only means, therefore, by which persons residing in Russia can obtain newspapers from the United Kingdom is by subscribing for them at one of the Russian Post Offices. The admission also into Russia of newspapers not of a political character is permitted only in those cases where they are addressed to the house of some established bookseller. Printed prices current, however, as well as printed circulars, in covers open at the ends or sides, are allowed to be addressed to any persons residing in Russia. In all cases where the above-mentioned printed papers are allowed to circulate by the post, they are chargeable in Russia with a Foreign rate of postage, in addition to the rate chargeable on their being posted in this country.

Parliamentary Proceedings.

9. Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage:—

Weighing not more than 1 oz.....	1d.
Weighing more than 4 oz., but not exceeding 8 oz.....	2d.
Weighing more than 8 oz., but not exceeding 12 oz.....	3d.
Weighing more than 12 oz., but not exceeding 16 oz.....	4d.

and so on; one penny being charged for every additional $\frac{1}{4}$ lb. or fraction of a $\frac{1}{4}$ lb.

The words "Parliamentary Proceedings" must be written or printed on the cover of the packet, otherwise it will be liable to the letter-rate of postage.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent under the Book Post privilege to all the Colonies, and to those foreign states between which and this country there is a Book Post.

10. The following are the Regulations of the inland Book Post:—

1st. Rates of Postage—	
Weighing not more than 4 oz.....	1d.
Weighing more than 4 oz., and not exceeding 8 oz.....	2d.
Weighing more than 8 oz., and not exceeding 16 oz.....	4d.
Weighing more than 1 lb. and not exceeding $1\frac{1}{2}$ lb. and so on, 2d. being charged for every additional half pound or fraction of a half pound.	6d.

2nd. The postage must be prepaid to the extent of one rate at least, by means of postage stamps affixed outside the packet or its cover; and if the whole postage be not thus prepaid, the postage is treated in the manner described in section 9.

3rd. Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the inclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string, but in such case the Postmaster is authorized to cut the string, although he is required to refasten the packet.

4th. A book packet may contain any number of separate books or rather publications (including printed letters and printed matter of every kind), photographs, when not on glass or in cases containing glass, prints, or maps, and any quantity of paper, parchment, or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in books; and, in short, whatever is necessary for the safe transmission of literary matter, prints, maps, or photographs, or usually appertains thereto; but no patterns, or books of patterns (unless these consist merely of paper) can be allowed.

5th. No book packet may contain anything which is sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed: Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted but recommended; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

6th. No book packet must exceed two feet in length, width, or depth, and if any such packet be presented at a Post Office it will not be received.

7th. Any packet which shall not be open at the end or sides, or shall have any written letter or any communication of the nature of a letter written in it, or upon its cover, will be charged with the "unpaid" letter postage.

8th. If a packet be found to contain any written

* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

letter, whether closed or open, or any inclosure sealed or otherwise closed against inspection, or any other authorized inclosure, the letter or inclosure will be taken out and forwarded to the address on the packet, charged with the full postage as an unpaid letter, together with an additional rate, and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of 1d., it is forwarded, charged with the deficient book postage, together with an additional rate; but any packet which bears no postage stamp is charged with the unpaid letter postage.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

11. At the following rates, and on the same conditions as the foregoing (except that no packet weighing more than three pounds can be sent to the East Indies or to New South Wales, and that no book packet can be sent to any other part of the Cape colony than Cape Town, Port Elizabeth, and Mysel Bay), book packets can be forwarded to every British colony, as well as to the undermentioned foreign countries:—

1st. To India, Ceylon, New South Wales, Victoria, Tasmania (Van Diemen's Land), South Australia, Western Australia, New Zealand, Mauritius, Labuan, and Hong Kong, the rate is as follows—

Via Southampton, Via Mars.

Weighing not more than 4 oz., 0s. 4d. ... 0s. 6d.
Weighing more than 4 oz., but

not exceeding 8 oz., 0s. 8d. ... 1s. 0d.

Weighing more than 8 oz., but

not exceeding 1 lb., 1s. 4d. ... 2s. 0d.

Weighing more than 1 lb., but

not exceeding 1½ lb., 2s. 0d. ... 3s. 0d.

and so on; two rates being charged for every additional half pound or fraction of a half pound.

2nd. To every other British colony, to Buenos Ayres and the other portions of the Argentine Confederation, to Monte Video and the rest of the Republic of Uruguay, to the Danish West Indies (St. Thomas, St. Croix, and St. John), to Hayti, St. Juan de Nicaragua, the Mosquito territory, to Liberia and other parts of the west coast of Africa, and by private ship to Hamburg, Bremen, and Lubeck, to Gotteburg via Hull, and via Southampton to Alexandria, Corfu, and Suez. For a packet

Weighing not more than 4 oz., 0s. 3d.
More than 4 oz., but not exceeding 8 oz., 0s. 6d.
More than 8 oz., but not exceeding 1 lb., 1s. 0d.
More than 1 lb., but not exceeding 1½ lb., 1s. 6d.
and so on; 6d. being charged for every additional half pound or fraction of a half pound.

12. The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet which is not open at the ends or sides, or which exceeds two feet in length, width, or depth, or which has any written letter, or any communication of the nature of a letter, written in it or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up, with as little delay as possible, to the Returned Letter Branch of the Circulation Office in

Edinburgh; but in the case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself, in accordance with the above regulations. If the book-packet be for a British colony or a foreign country to which the book post extends, and is sufficiently prepaid, it is, whether posted in England, Ireland, or Scotland, sent to the Returned Letter Branch, London, where it is detained until the proper postage, together with one additional book-rate, is obtained.

13. To prevent obstacles to the regular transmission of letters, any Head Postmaster may, when necessary, delay forwarding a book-packet, not a newspaper, for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices* the delay may, at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

14. It must be borne in mind that the main business of the Post Office is the transmission of *letters*, and that the forwarding of books and newspapers (which no one is compelled to send through the Post Office), though an important, is only a secondary object, for which no arrangement can be made which would interfere with the quick and regular conveyance and delivery of letters. Books, therefore, which would be injured by being thrust into a bag, and hurriedly pressed down like a bundle of letters, should not be sent through the post.

POSTAGE STAMPS.

15. Every Postmaster and Letter Receiver is required to have on hand a sufficient stock of postage labels and penny stamped envelopes, and to sell them to the public at the following prices:—

Stamped Labels.

Penny Labels.....	1d. each.
Twopenny do.	2d. each.
Fourpenny do.	4d. each.
Sixpenny do.	6d. each.
Shilling do.	1s. each.

Stamped Penny Envelopes.

† 12 to be sold for	1s. 1½d.
8 "	0s. 9d.
6 "	0 . 6d.
4 "	0s. 4d.
2 "	0s. 2½d.
1 "	0s. 1½d.

Two kinds of embossed envelopes are now issued; one with a thread passing through the stamp, and the other without any thread, but made with thicker and better paper. Every person can have the kind he prefers.

16. Every Rural Messenger is authorized to sell postage labels and embossed envelopes at the same prices at which Postmasters are empowered to sell them, and when any person applies to him for such labels the Messenger must either supply them, or (if he have none in his possession) he must, without extra charge, receive the postage in money, and, on

† Every complete dozen, or any larger number, must be charged at the same rate.

his arrival at the Post Office, obtain stamps for it, and affix them carefully to the letters.

17. Prepayment of inland letters, &c., must be by stamps,* except at the Chief Post Office, London, where prepayment of such letters from 10 A.M. to 5 P.M. is permitted in money, provided the amount be not less than £1. Letters also to the colonies and foreign countries may be prepaid in money. Except in the case of letters posted in Malta, Gibraltar, Constantinople, Alexandria, Cairo, Suez, Buenos Ayres, Lagos, and Fernando Po, and those sent by officers and seamen serving on board her Majesty's ships. British postage stamps are not available for the payment of letters, &c., coming into the country.

18. When adhesive stamps are used, they should be examined to see that they firmly adhere, since, if they fall off, the letters, &c., will be charged with postage, which in the case of inland letters, is double the prepaid rate. To some places abroad also, double the prepaid rate is chargeable in such cases; and in other instances the letters, &c., are liable to be detained for the deficient postage. The stamps should be placed on the front of the letter, and upon the right hand corner of the upper side.

19. Arrangements have been made by which paper and envelopes taken by the public to the Office of Inland Revenue, &c., Somerset House, can be embossed with postage stamps under the following regulations:—

1st. When the stamps required do not amount to £10; 1s. is charged, in addition to the postage stamps, for each distinct size of paper.

2d. When the stamps amount to £10, no fee is charged, provided one size of paper only be sent.

3d. When the stamps amount to £20, no fee is charged, provided not more than two sizes of paper be sent.

4th. When the stamps amount to £30, no fee is charged, provided not more than three sizes of paper be sent.

5th. When the stamps amount to £40, no fee is charged, provided four sizes of paper only be sent, and no more than four sizes can be received on a single warrant.

6th. No folded envelopes can be stamped, and therefore paper, whether intended for envelopes or letters, must be sent unfolded and without being creased.

7th. Every distinct size and form of envelope or paper must be marked so as to indicate the place on which the stamp is to be impressed, in order that it may appear in the proper position, according to the rules of the Post Office, when the envelope or letter is folded up.

8th. No coloured paper can be received for stamping, nor any paper which is too thin to bear the impression of the dies.

9th. Envelopes provided by the Office of Inland Revenue, with proper stamps thereon, will be substituted for any of those sent which may be spoiled in the operation of stamping.

10th. A license to sell postage stamps can be obtained free of expense, by any respectable person, on application to the officer of Inland Revenue.

REGISTRATION.

20. By the prepayment of a fee of sixpence* any letter, book, or other packet on which the postage has been prepaid in stamps may be registered to any place within the United Kingdom. Book packets and newspapers can also be registered to the colonies under the conditions mentioned at page 28. To foreign countries *letters only* can be registered. The registration of a packet makes its transmission more secure by rendering it practicable to trace it, when inland, from its receipt to its delivery; when colonial or foreign, if not to its delivery, at least to the port of despatch. The Post Office does not guarantee the safe delivery of the letter, &c., though the officers are of course responsible to the Postmaster-General, who will call to strict account any one neglecting his duty on this point, and, if his Lordship thinks proper, will require him to make good any loss that may be sustained thereby.

21. The postage and registration fee of registered letters must be prepaid; and if the letter be inland such prepayment must be by stamps.

22. Every letter to be registered should be presented at the window, and a receipt obtained for it, and must on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered," be dropped into the letter-box, it will, if directed to any place in the United Kingdom, be liable to a registration fee of one shilling, instead of the ordinary fee of sixpence. No Letter Carrier or Rural Messenger is required to take letters for the public for the purpose of registering them.

23. The latest time for posting registered letters at Glasgow is half an hour before the closing of the box for the mail by which they are to be despatched.

24. Parliamentary notices may be forwarded through the post under the following regulations:—

1st. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the collector issuing such parliamentary notice should also be legibly printed or written on the face of the letter; though this is not imperative.

2nd. These notices must be posted either at the General Post Office, St. Martin's-le-Grand, in London; the General Post Office in Dublin; the General Post Office in Edinburgh; or at the chief office at one or other of the following towns:—

Aberdeen,	Inverness,
Athlone,	Leeds,
Belfast,	Lincoln,
Birmingham,	Liverpool,
Bristol,	Manchester,
Cork,	Newcastle-upon-Tyne,
Exeter,	Norwich,
Glasgow,	Shrewsbury.

3d. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted on or before the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices, which by the same

* Payment in stamps must always be made by affixing outside the letter, &c., before it is posted, a number of stamps equal in value to the amount of postage.

* This fee, in the case of a letter addressed to a place abroad, or posted in London, may be paid either in money or stamps; but in all other cases it must be paid in stamps.

orders may be served later than the 15th, may be posted after the 12th of that month.

4th. The Postage chargeable on these notices and the registration fee of sixpence on each must be prepaid by stamps.

5th. The notices must be posted at the Post Office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists are examined by the officer in attendance at the window; and if each list correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post Office, London.

25. The hours for receiving both parliamentary notices and the under-mentioned voting notices are the same as those for the registry of ordinary letters, unless the parliamentary notices be presented at such a time as to interfere with the other duties of the office; in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same: Provided that, when the notices are to be served on or before the 15th Dec., such arrangement do not delay the posting beyond the 12th. Redirected parliamentary notices are liable to an additional rate of postage as ordinary letters.

26. Whoever sends parliamentary notices, should, if possible, arrange on the day before with the Postmaster as to the most convenient time for posting them, and state the probable number.

27. On repayment of the postage and of a registration fee of twopence, either in money or stamps, a notice belonging to any one of the classes enumerated in the Act 6 Vict. c. 18 (relating to votes for members of Parliament) can be sent through the post with the securities for their safe delivery enjoined by law, provided it be brought duly directed, open and in duplicate, to a Postmaster of an office where money-orders are issued or paid.* On receiving the notice, the Postmaster has to compare it with the duplicate, and if the two agree the latter will be stamped and returned to the bearer.

28. When a poll-book is presented by any returning officer to be forwarded by post, the Postmaster is required to give to such officer an acknowledgment thereof in writing, stating therein the time when he received it.

29. No registration fee is demanded for poll-books, and the prepayment of the postage is optional without regard to weight or size.

MONEY ORDERS.

30. The public are recommended, when applying for Money Orders, to use printed "Requisition Forms," which save time, and afford greater security against mistakes than verbal messages. These Forms are supplied gratuitously at all Money Order Offices.

31. The commission on an Inland Money Order not exceeding £2 is threepence, and on one above £2 it is sixpence; no order being granted for more than £5. The commission on a Money Order to

Canada is fourfold these sums, and on Money Orders payable at Malta or Gibraltar threefold.

32. No order is allowed to contain a fractional part of a penny.

33. With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid), together with the remitter's address.

1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice,* except a company trading under a title which does not consist of the names of the persons composing it, as the "Carrot Company," to which kind of company the above privilege does not extend.

2d. When the remitter notifies in writing that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee; and he may, if he wish it, substitute for the name of the payee any other designation, or any modification of the name, as, for example, "The Cashier of the Bank of England," "The Chief Clerk of the Foreign Office," "The Publisher of the Times, Messrs. Longman & Co."

34. When application is made for a Money Order payable in London or any other town where there is a plurality of Money Order Offices, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be cashed at the chief office alone. It is not incumbent on a Postmaster to supply such information relative to local or provincial offices, but the nearest Money Order Office to any street in London may be ascertained by referring to the Street List.

35. An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the issuing or paying Postmaster, according to the directions printed on the back of the cover. The remitter of an order may make that order payable ten days after date, provided he sign the requisition "C," printed on the order, to defer payment until ten days after date, and affix a penny receipt stamp thereto.

36. When an order is presented for payment (otherwise than through a Bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant for payment is neither the rightful claimant, nor deputed by him. When an order is paid through a bank, it is sufficient that it be received (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

37. The holder of a Money Order is always at liberty to direct, by crossing it, that the order be

* The posting of these notices is confined strictly to Post Offices where money-order business can be transacted; consequently, whenever such power is suspended at any office, none of these notices can there be received.

* The mere term *Messrs.*, however, is not sufficient.

paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an ordinary Money Order is dispensed with.

38. Money Orders do not require a receipt stamp.

39. Payment of an order must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. Any person presenting a lapsed order will be furnished with a copy of a printed notice headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money will be lost.

40. No application can be entertained for compensation for alleged injury from the nonpayment of a Money Order at the expected time; and after once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim.

To guard against the loss of the Money Order, the public are particularly cautioned—

1st. Never to send the Money Order in the same letter with the information required on payment thereof.

2nd. To be careful on applying for a Money Order to state correctly the surname, and at least the initial of the Christian name, of the person in whose favour it is to be drawn.

3rd. To see that the name of the person taking out the order is correctly known to the person in whose favour it is drawn.

4th. Under no circumstances can payment of an order be demanded on the day of issue.

41. In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars), and enclosing the amount of a second commission in postage stamps to the Controller of the Money Order Office of the kingdom where the original order was issued; and if it be desired to stop payment of an order, a similar application, with enclosure of postage stamps, must be made to the controller of the chief money order office of the kingdom, in which the order is payable. If alteration in the name of the payee or remitter of a money order should be required, application must be made by the remitter to the Postmaster of the office at which the order was issued, and a second commission must be paid. Should transfer of payment of an order from one office to another in the United Kingdom, or repayment of the amount of an order be required; and application inclosing the order must be made to the Postmaster at whose office the order is payable, who will transmit in exchange a new order payable at the place desired, but for a less sum than the original order by the amount of the second commission charged for the reissue. Proper printed forms for making applications in all these cases may be obtained at any money-order office, and full instructions on the subject will be found printed at the back of the money order. Whenever, on complaint being made, it is found that the necessity for an application entailing the payment of a fresh commission is attributable to the Post Office, the stamps transmitted in payment of the commis-

sion will be returned; and when it can be ascertained where the blame lies, the officer in fault will be required to pay the additional commission.

42. A postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the applicant with the prescribed form of application. Moreover, if payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the Postmaster is instructed to advise the applicant for payment to communicate with the remitter, and request him to apply personally to the issuing Postmaster.

43. No letter-carrier or other servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one, but such services are not forbidden.

44. No Money Order business is transacted on the Sunday; neither in England or Ireland is any transacted on Christmas-day or Good-Friday; nor in Scotland on the Sacramental Fast-days; but for the convenience of the labouring classes the provincial offices are kept open on the Saturday night till 8 o'clock (or as near that hour as the despatch of the mail will allow), except where the surveyor of the district considers such an arrangement unnecessary.

45. Money Orders are issued and paid at the Chief Offices in London, Dublin, and Edinburgh daily, between the hours of 10 a.m. and 4 p.m., except on Saturdays, when the hours of business are from 10 a.m. till 1 p.m. Orders are issued and paid at most provincial offices from 9 in the morning till 6 in the evening, and the time is never less than from 10 till 4. A postmaster, however, is in some cases allowed to suspend the business during the time he is making up his letter bags, &c., provided a notice of the intervals be placarded at his office.

46. The deputy postmasters-general of Malta and Gibraltar are authorized to issue Money Orders on the several Money Order Offices in the United Kingdom and Canada, and to pay Money Orders granted on them at the Money Order Offices in the United Kingdom.

47. Money Orders are issued at all Money Order Offices in the United Kingdom of Great Britain and Ireland, and at Malta and Gibraltar, on Money Order Offices in Canada, and by the Canadian Offices on any Money Order Office in the United Kingdom, at the charge of 1s. for any sum not exceeding £2; and 2s. for any sum above £2, and not exceeding £5, beyond which amount no Order can be granted.

48. The issue of Money Orders under the above arrangement is in all other respects on the same conditions as regulate their issue by one office on another in the United Kingdom, except that in consequence of the distance between the United Kingdom and Canada, an interval of four instead of two months is allowed after the issue of an Order in one country payable in the other, before such Order becomes lapsed.

49. The renewal of a lapsed Order, the issue of a duplicate Order, or the stoppage of payment of an Order, will be made on the application of the proper party to the Controller of the Metropolitan Office of the country in which such Order is payable, provided an additional Inland Rate of Commission be inclosed

with the application; except in the case of lapsed Orders, when the additional commission will be deducted from the amount of the new Order issued by the department; but the lapsed order must be transmitted with the application for its renewal.

50. For repayment of the amount of a Money Order, or for the correction of any error respecting the name of the Payee or Remitter of an Order, the application on the subject, inclosing an additional inland rate of Commission, must be addressed to the Controller of the Metropolitan Office of the country in which the *Order was issued*.

MISCELLANEOUS RULES.

52. With the following exceptions, no letter, &c., can be forwarded by the post which is more than two feet in length, breadth, or depth, nor any unpaid packet which weighs more than four ounces, unless three-quarters of the postage have been paid. The exceptions are:—

1st. Packets to or from places abroad.
2nd. Packets to or from any of the Government Offices or Departments, or Public Officers.

3rd. Petitions or addresses to the Queen, whether directed to her Majesty, or forwarded to any member of either House of Parliament.

4th. Petitions to either House of Parliament, forwarded to any member of either House.

5th. Printed Parliamentary proceedings.

53. No information can be given respecting letters which pass through a Post Office* except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

54. Postmasters are not allowed to return any letter, &c., to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect

* The term "Post Office" applies to all Post Offices, whether Head Office, Sub-Office, or Receiving Office. A "Head Office" is an office subordinate only to a Metropolitan Office. Both Sub-Offices and Receiving Offices are under Head Offices; but at Receiving Offices letters are received only, not delivered.

be written thereon; as every letter, &c., must be delivered to the person to whom it is directed, and to him alone, at the address it bears.

55. Late letters, &c.,* are received till within five minutes of the despatch of the mails, except in those large towns where the surveyor may deem an interval of ten minutes necessary, and excepting that no office is to be kept open merely for the purpose after ten o'clock at night.

56. No late letters, &c., are forwarded by the mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late-letter fee; but, in the case of Government letters, it is sufficient to prepay the fee.

57. With the subjoined exceptions, every redirected letter or other postal packet will be liable to an additional postage (at the prepaid rate) unless the redirection be not only made by an officer of the Post Office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or unpaid letter redirected either by an officer of the Post Office, or by any one else, to a different postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce, but does not exceed an ounce, of two-pence; and so on. Upon a book thus redirected to any other postal district in the United Kingdom, and weighing not more than four ounces, an additional postage of one penny is levied; or, if the book weigh more than four ounces, but not more than eight ounces, an additional postage of twopence; and so on. Newspapers and books, &c., received from abroad, and reposed to any other place abroad, with which there is no book post, are chargeable with letter postage. A registered letter when redirected, is not subject to a greater additional charge than an ordinary letter; and, if reposted, a second fee must be paid with it. Letters which have once been posted addressed to commissioned officers in the army, navy, or ordinance, or to non-commissioned officers, private soldiers, or seamen employed on actual service in any of her Majesty's colonies, or on any foreign station, and who, before receiving the letters, may have started on their return home or to another station, may be redirected to such officers, private soldiers, or seamen, when these have removed upon service, and will be delivered to them without any charge for redirection. The same privilege extends to the letters of non-commissioned officers, private soldiers, and seamen, redirected from one part of the United Kingdom to another part of the United Kingdom, or from the United Kingdom to a place abroad; but no such privilege is allowed with regard to letters for a commissioned officer redirected from one part of the United Kingdom to another, or if posted in the United Kingdom redirected to a place abroad. Postmasters are not bound to redirect letters for inhabitants of the same postal district, unless their places of abode should be left uninhabited, or they have a private bag or box; and unless, in addition, a written application properly signed be received by the Postmaster from the person to whom the

letters are addressed, requesting that they may be redirected.

58. Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of Letters, &c.

59. During the time the office is open on Sunday (viz. from 8 to 9 A.M.) the public are allowed to prepay foreign or colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which on that day are wholly suspended.

60. At no provincial town in England or Ireland is there more than one delivery on the Sunday, Christmas-day, or Good Friday; nor in Scotland on Sunday or the Sacramental Fast-days; and any person is at liberty to prevent this so far as relates to himself, as shown by the following regulations:—

1st. Any person can have his letters, &c., retained in the Post Office on Sunday by addressing to the Postmaster a written request, duly signed, to that effect.

2nd. Such request will be held to include newspapers, and all other postal packets, even such as may be marked "immediate," as no distinction can be allowed.

3rd. No letters, &c., the non-delivery of which by the Letter-carrier on Sunday has been directed, can be obtained from the Post Office window on that day.

4th. Private box-holders have the option of applying for letters at the office while it is open for delivery on Sunday, or of abstaining from so doing, as they may think proper; but no person can be permitted to engage a private box for Sunday only.

5th. To prevent the inconvenience and confusion which would arise from frequent changes in these instructions, no request can be entertained unless it extend to a period of at least three months, nor be withdrawn, even after the lapse of that time, without a week's notice.

61. No Postmaster is bound to give change, or is authorized to demand change; and when money is paid at the Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

62. Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

63. Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag, or the person of any officer of the Post Office. If such a letter, &c., be posted without the Postmaster's knowledge, or if at any time before its despatch he should discover any letter, &c., of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to:—

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, vegetables, bladders, or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or combustible.

* The term "Letters," &c., is meant to include everything sent by the post; whether letters, newspapers, parliamentary proceedings, books, or aught else. "Late letters" are such as are posted after the ordinary time, and which cannot therefore be sent forward by the mail then in preparation, unless extra payment be made.

When any letters, &c., remain undelivered, owing to the residence of the persons to whom they are addressed not being known, a list of the addresses is affixed in the window of the Post Office to which they may have been sent, during the time—one week—they are allowed to remain there.

64. When the reason for the non-delivery of a letter, &c., in the country is "Deceased," the packet is sent, as soon as practicable, to the Returned Letter Office, as are all letters intended for ships which have sailed before their arrival. When the reason is "Refused," "Not known," or "Gone away," the letter is retained by the provincial postmaster for one week before being sent to the Returned Letter Office; and when the reason is "Not called for" (the letter being addressed to a Post Office), the packet is retained by the Postmaster one month; except in the case of letters at seaports addressed to persons on board ships expected to arrive at such ports—which letters are kept three months. London district letters, and letters from the country, addressed to London and its neighbourhood, whether the reason is "Deceased," "Refused," or "Gone away," are sent to the Returned Letter Office on the day after the attempt to deliver them. All town and provincial letters which contain the name and address of the senders, are returned to them the same day they reach the Returned Letter Office. Colonial and Foreign Letters are, with a few exceptions, returned in periods varying from one to two months.

Every letter, &c., which is opened at the Returned Letter Office, and found to contain the address of the sender, is sent back to him; but such as do not contain the sender's address are destroyed, except those which contain money or other articles of value.

65. By the Act 1st Victoria, cap. 36, sec. 2, any person conveying otherwise than by the Post a letter not exempted from the exclusive privilege of the Postmaster-General, incurs a penalty of £5 for every letter, and £100 for every week the practice is continued. The sender also incurs a penalty of £5 for every letter, with full costs of suit.

66. The following are the exceptions granted by the Act 1st Victoria, cap. 34, from the exclusive privilege of the Post Office, in the conveyance of letters:—

1st. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed:

2nd. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings, or returns thereof, issuing out of a Court of Justice:

3rd. Letters sent out of the United Kingdom by a private vessel (not being a packet boat):

4th. Letters of merchants, owners of vessels of merchandise, or the cargo or loading therein, sent by such vessels of merchandise, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise:

5th. Letters concerning goods or merchandise sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters:

6th. No person is authorized to make a collection of such excepted letters for the purpose of sending them in the manner above described.

67. The following persons are expressly forbidden to carry a letter, or to receive or collect or deliver a letter, even though they shall not receive hire or reward for the same:

1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their packhorses; and owners, drivers, or guards of stage coaches:

2d. Owners, masters, or commanders of ships, vessels, steam-boats, or boats called or being passage or packet-boats, sailing or passing coastwise, or otherwise between places within Great Britain or Ireland, or between, to, or from ports within her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board:

3rd. Passengers or other persons on board any such ships, vessels, steam-boat, passage or packet boat:

4th. The owners of or sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other her Majesty's dominions.

Letters for Non-commissioned Officers, Soldiers, and Seamen in her Majesty's Service.

68. S. Subject to the subjoined regulations, non-commissioned officers, band-masters, private soldiers, or seamen, whether serving on board her Majesty's ships on sea or land (in Foreign parts), as also enrolled pensioners in Canada, can send and receive letters by direct packet or vessel of war, for a postage of 1d.; but if any such letters have to pass through a foreign country, they are subject, in addition to the foreign rate, whatever that may be; thus the postage to the under-mentioned countries (including the British charge of one penny) is as follows:—

To or from	Under ½ oz.	Above ½ oz. and not exceeding 1 oz.
Malta, Ceylon, Mauritius, India, Japan, or Australia, via Mar-seilles,	0 4	0 7
China,	0 3	0 5

Vancouver's Island or British Columbia, via New York from or to United Kingdom and United States by United States Packet,	0 6	0 6
Vancouver's Island or British Columbia, via St. Thomas and Panama,	1 2	1 2
Canada, via United States,	1 0	1 0
	0 3	0 3

1st. The person claiming the privilege must at the time be actually employed in the service of her Majesty, and must not be either a commissioned officer, midshipman, master's mate, or warrant officer (viz., assistant-engineer, gunner, boatswain,

or carpenter), the privilege not extending to these officers.

2nd. If the Letter be posted within the United Kingdom, the penny must be prepaid, as must any foreign postage that may be chargeable; and if sent by a private ship the gratuity of one penny to the captain must also be prepaid. If posted abroad, prepayment is not compulsory; but if the letter be sent unpaid, it is on delivery charged two pence, together with any foreign postage or gratuity to a sea captain that may be due.

3rd. The Letter must not weigh more than half an ounce.

4th. It must relate entirely to the private concerns of the soldier or seaman.

5th. The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship, or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full. The foregoing particulars must be given in one of the following forms:—

OFFICERS' LETTERS.

69. Letters addressed to military officers, or naval officers on board her Majesty's ships on Colonial or Foreign Stations, are subject to a uniform British rate of 6d. $\frac{1}{2}$ oz., which must be paid in advance; but if any such letters have to pass through a Foreign Country, they are subject, in addition, to the Foreign rate, whatever that may be: thus, the postage to the undermentioned countries (including the British charge of 6d.) is as follows:

To or from	Under $\frac{1}{4}$ oz.	Above $\frac{1}{2}$ oz. and not exceeding $\frac{1}{4}$ oz.	S. D.	S. D.

70. If either of the foregoing regulations be violated, the letter is charged with the full Letter Rate.

Letters weighing more than 2 oz.

71. The postage of a Letter weighing any number of ounces, with any fraction of an ounce, may be reckoned by first seeing what it would be if the Letter weighed only one ounce, with the same fraction; and then adding the charge for the additional ounces. Thus, to find the postage on a Letter to France weighing between 3 oz. and 3 $\frac{1}{4}$ oz., take 1s. 8d. (the charge for a Letter between 1 oz. and 1 $\frac{1}{2}$ oz.), and add thereto 2s. 8d., the charge for the additional two ounces; giving a total of 4s. 4d. For a Letter between 3 $\frac{1}{2}$ oz., and 3 $\frac{3}{4}$ oz., take 2s. 4d. (the charge for a Letter between 1 $\frac{1}{2}$ oz. and 1 $\frac{3}{4}$ oz.), and add thereto 2s. 8d., the charge for the two additional ounces, giving a total of 5s. Whenever it appears by the Table that the postage to a British Colony of a Letter not exceeding $\frac{1}{2}$ oz. in weight is 6d., the postage of a Letter of any greater weight may be found by multiplying the prepaid Inland rate by six. Thus, the postage of a Letter between 4 oz. and 5 oz. in weight to Jamaica is 5s., being six times 10d., the prepaid Inland rate of a Letter of that weight.

Routes.

72. When the route by which a Letter is to go is not marked on it, it will, as a rule, be sent by the route immediately following the name of the place in the Table. But in some cases the postage paid (provided it be by stamps) is regarded as an indication of the wish of the sender, and the letters are forwarded by the route for which the prepayment is sufficient. Thus Letters for Denmark, Frankfort, Hesse, Holland, Jass Larnica, Lauenburg, Lippe Detmold, Nassau (Duchy of), Norway, Saxe-Coburg Gotha, Saxony, Schaumburg Lippe, Schwartzburg Rudolstadt, and Schwartzburg Sondershausen, which as a rule are sent via Belgium, are sent via France, if the prepayment be insufficient for the former but sufficient for the latter route; and those for Aden, Alexandria, Ceylon, China, India, Japan, Java, Madagascar, Malta, Mauritius, Penang, Philippine Islands, Reunion, and Singapore, are sent via Southampton, if the postage paid be at the rate of 6d. the $\frac{1}{2}$ oz. Letters for Brazil, Buenos Ayres, Monte Video, and Cape de Verde are sent by the first mail made up (either via Southampton or via Bordeaux) after the date of posting, if fully prepaid. For information respecting a foreign rate of postage, as distinguished from the combined British and Foreign rate (which will be found in the foregoing Table), application should be made to the Secretary of the Post Office. No transit postage is charged on letters

to or from India or Australia via Southampton. Letters directed to the care of the Packet Agent at Suez, and despatched by the mail via Marseilles, which follows the mail via Southampton, will probably reach passengers for India, &c., who have sailed in the Packet from Southampton.

No packet of books or newspapers, however, can be sent to the Austrian dominions, via Sardinia, if it weighs more than 1 lb.

The term "printed papers" (as applied to foreign countries) includes printed papers of every kind, Parliamentary proceedings and Books of every kind, whether printed, engraved, or lithographed, Sheets of Music, Prints, and printed or engraved Maps, with any binding, mounting, or covering (whether loose or attached), belonging to any Book, &c., and

any cases or rollers of prints, or of printed or engraved Maps, together with Bookmarks, Pencils, Pens, or other articles usually appertaining to any such Book, &c., or necessary for its safe transmission. But no such Book, &c. (unless it be for Sardinia, in which case writing, not of the nature of a letter, is allowed), must contain any writing or manuscript mark of any sort, and no packet must exceed 18 inches in length, width, or depth (except those addressed to Sardinia, Spain, the Balearic or Canary Islands, Tuscany, Parma, Modena, and the Austrian dominions, which must not exceed 24 inches), otherwise it will be detained and sent to the Returned Letter Office charged with Letter Postage. To Spain, the Balearic or Canary Islands, however, Books cannot be sent; neither can Prints, Music, Maps, or Drawings, unless they form part of a publication included in a packet of printed papers. In Spain, also, as a rule, the circulation is prohibited of all articles which are not either letters or printed papers; but patterns and samples may be sent under the following regulations:—

- 1st. The patterns or samples themselves must be of no intrinsic value whatever.
- 2nd. They must be inclosed in covers open at the ends or sides, or in such other manner as to admit of a thorough inspection.
- 3rd. The covers must contain no writing except the usual trade marks and numbers.
- 4th. Packets of patterns and samples thus forwarded will be liable in this country to the same rates of postage as ordinary letters for Spain, viz., 6d. for a packet not exceeding a quarter of an ounce in weight, increasing for heavier weights at the rate of sixpence for each quarter of an ounce; and such postage must in all cases be paid in advance.

75. To all ports of Belgium, to Sardinia, Spain, the Balearic or Canary Islands, Tuscany, Parma, Modena, and the Austrian dominions, France, Algeria, and to those places in Turkey, Syria, and Egypt where France maintains post offices, the above rates carry the packet to its destination; no charge being made on delivery. At the same rates (although subject to a further charge on delivery) newspapers and other printed papers may be sent to those countries not mentioned in the foregoing Section (74), the correspondence for which is forwarded as a rule by way of France (as shown in the Table of Colonial and Foreign Postage), and (when so addressed) to other countries via France. As regards packets sent through France (except to the countries enumerated in Sections 73 and 74) the term "printed papers" does not include cases or rollers, or Maps, Bookmarks, Pencils, Pens, &c., but does include Parliamentary Proceedings, Books of every kind, sheets of Music, and Prints. In these latter cases the rates paid in the United Kingdom free the newspapers or other printed papers through France, but not beyond.

Printed Papers to Portugal, &c.

76. Periodical works, pamphlets (but not books of other kinds), prices current, sheets of music, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, or lithographed, may be sent to Portugal, Madeira, Azores, Cape de Verde Islands, and all other Portuguese possessions on the coast of Africa by packet or private

ship at the rate of 1d. per ounce, or, if sent via France and Spain, 2d. per ounce.

77. The Foreign rates of postage on Newspapers to parts of Turkey, &c., via Belgium, specified in the Table, as exceptional rates, are as follows:—Not exceeding $\frac{1}{2}$ oz., 1 $\frac{1}{2}$ d.; $\frac{1}{2}$ oz. and not exceeding 1 oz., 3d.; 1 oz. and not exceeding 1 $\frac{1}{2}$ oz., 4 $\frac{1}{2}$ d.; 1 $\frac{1}{2}$ oz. and not exceeding 2 oz., 6d.; 2 oz. and not exceeding 2 $\frac{1}{2}$ oz., 7 $\frac{1}{2}$ d., and so on, 1 $\frac{1}{2}$ d. being charged for every succeeding $\frac{1}{2}$ oz. or fraction of $\frac{1}{2}$ oz. Besides this Foreign postage there is a British postage of 1d. for each Newspaper. Both rates must be prepaid.

A newspaper for Hayti, St. Juan de Nicargana, the Mosquito Territory, the Argentine Republic, Uruguay, or for India via Marseilles, weighing above 4 oz. and not exceeding 8 oz. is chargeable with two single rates; above 8 oz. and not exceeding 12 oz. with three single rates, and so on. A Newspaper for India via Southampton, is charged as follows:—Not exceeding 4 oz., 2d.; above 4 oz. and not exceeding 8 oz., 3d.; above 8 oz. and not exceeding 12 oz., 4d., and so on.

The privilege of the Book Post to and from India and New South Wales is limited to packets not exceeding 3 lbs. in weight; any packet weighing more than 3 lbs. is liable to letter rate of postage.

78. Periodical works not of daily publication, issued in the shape of pamphlets, may be sent to Prussia via Belgium and by private ship, to the United States, California, and Oregon by Packet, and to Holland via Belgium, and by private ship (to which latter country Parliamentary proceedings may also be sent), at the following rates: not exceeding 2 oz., 1d.; 2 oz. and not exceeding 3 oz., 6d.; 3 oz. and not exceeding 4 oz., 8d.; with an addition of 2d. for every additional ounce up to 16 ounces, above which weight the privilege does not extend, *except in the case of parliamentary proceedings to Holland, the weight of which is unlimited.* At the same rate of postage, any pamphlet not weighing more than 8 oz. (even though it be not a periodical publication) may be sent to the United States. The periodical works or pamphlets must always be sent in a cover open at the ends (not more than one being sent in a single cover), and the postage must be prepaid. Other printed papers or books (except those specified above) addressed to the places above-named are liable to letter rate of postage. There must be no writing, printing, or other marks upon the covers of periodical works and pamphlets for the United States except the names and addresses of the persons to whom they are sent; other writing, printing, &c., will render them liable to letter rates of postage.

Prussia, and the German Postal Union generally.

79. According to the regulations of the German Postal Union, no letter exceeding 50 grammes (a little more than 1 $\frac{1}{2}$ oz.) in weight, and containing any other inclosure than paper, can be allowed to circulate by the post. Any letters, therefore, forwarded in the mail to Prussia above that weight, and containing any other inclosure than paper, will be liable, on their arrival at the Prussian frontier, to be stopped, and sent to the Custom House for delivery as freight.

Registration of Letters, &c.

80. The fee chargeable for registering a letter in

addition to the ordinary postage, both of which must be prepaid or the letter cannot be registered, will be found against each country or place in the table of Colonial and Foreign postage.

81. “||” Where this sign is made use of in the column of fees in the Table of Colonial and Foreign postage, it signifies that the letter can only be registered with certainty to the port of despatch; it being left in those cases to the postal authorities of the colony or foreign country to continue the registration if they think proper. The principal places to which this restriction applies are as follows:—Africa, West Coast (except Gold Coast, the Gambia, and Sierra Leone), Argentine Confederation, Ascension, Borneo, Brazil (except by French Packet), Carthagena, Cayenne, Central America, China (except Hong Kong), Cuba, Caraçoa, Egypt (except Alexandria, Cairo, and Suez), Falkland Islands, New Granada, Paraguay, Philippine Islands, Reunion, St. Croix, St. Eustatius, St. Martin's, St. Thomas, Sandwich Islands, States on the Pacific side of South America, Surinam, Syria, Tahiti, Tasmania, Uruguay, Vancouver's Island and Venezuela, Guadalupe, Hayti, Labuan (Mexico), Honduras (except Belize), Japan, Java, Madagascar, Mexico.

82. *France and Countries through France.*—The registration fee upon letters addressed to France or Countries through France (exclusive of those sent in the British mails to India, Gibraltar via France, Malta, Constantinople, Portugal, Spain, Sardinia, Parma, Placentia, Modena, Tuscany, or Australia) is not a fixed sum, but is chargeable by weight, and is in all cases a sum exactly equal to the postage, whatever that may be.

83. *Russia and Poland via Belgium.*—The registration fee chargeable upon letters addressed to Russia and Poland is stated at length in the Table of Colonial and Foreign Postage. It is composed as follows:—A fixed sum of 9d. for a letter of any weight, in addition to 3 $\frac{1}{2}$ d. for every $\frac{1}{2}$ oz. or fraction of a half ounce.

84. Letters and Book-packets, &c., addressed to the following British Colonies can be registered only as far as the port of despatch; but to all other British Colonies they can be registered to destination:—Tasmania, Ascension, Gambia, Vancouver's Island, British Columbia, Labuan, and Falkland Islands. Whether the registration be to destination or to the port of despatch only, the fee is 6d., irrespective of weight; and this fee, together with the usual letter rate, &c., must be paid in advance.

Letters, &c., by Private Ships.

85. To most of the places entered in this Table, letters may, if so marked, be sent by British private ship, even where there is no entry to that effect in the Table. Letters may be sent by private ship, also, to many other places; the Table of Colonial and Foreign Postage being chiefly limited to those with which there is postal communication by regular packets. To insure any letter, &c., being sent by private ship, the words “By Private Ship,” or “By Ship,” should be distinctly written above the address. Except where otherwise specified in the Table, the postage on a letter by a private ship is six times the inland prepared rate; consequently, on a letter not $\frac{1}{2}$ an oz. it is 6d., which postage must generally be prepaid, though to the following places ship letters may be sent unpaid, viz., Bermuda,

Canada, Cape of Good Hope, Gold Coast, New Brunswick, Nova Scotia, Newfoundland, Prince Edward Island, Turk's Island, Sierra Leone, and Mauritius—Newspapers by private ships are charged 1d. each. In those cases where there is no packet conveyance, and where, at the same time, book packets are allowed to be sent by private ship, an entry to that effect will be found in the Table.

Warm Climates.

86. The practice of sealing letters passing to and from the East and West Indies, and other warm climates, with wax (except such as is specially prepared) is attended with much inconvenience, and frequently with serious injury to the letters, in consequence of the melting of the wax and adhesion of the letters to each other.

87. The public are therefore recommended in all such cases to use either wafers or gum, and to advise their correspondents in the countries referred to, to pursue the same course.

Prepayment.

88. Letters addressed to places abroad may be prepaid in this country either in money or stamps, but such payment must be wholly in stamps or wholly in money. Newspapers and Bookpackets must always be prepaid, and this in stamps. With certain exceptions the only admitted evidence of the prepayment of a letter, &c., inwards, is the mark agreed upon with the particular foreign country or colony. Naval officers and marines and seamen also serving abroad are allowed to prepay such of their letters as are conveyed in their ship's bag, with English postage stamps. When prepayment is optional, any outward letter (that is, a letter posted within the United Kingdom, and addressed to some place out of it) posted with an insufficient number of stamps is charged with the deficient postage in addition; unless the letter have to go to a country through France, Holland, or the United States, in which case it is treated as wholly unpaid, the postal conventions with the latter countries not allowing the recognition of partial prepayment. When prepayment, however, is compulsory, a letter or aught else posted with an insufficient number of stamps is sent (by the first post) to the Returned Letter Office. Letters for Russia and Poland insufficiently prepaid are forwarded as wholly unpaid, arrangements with those countries not admitting of partial prepayment. Unpaid letters addressed to or received from France, are charged with a postage of 8d. per $\frac{1}{4}$ oz.; and those to or from places in Turkey, Egypt, and Syria, at which France maintains Post Offices, are, on delivery, charged a rate of 9d. per $\frac{1}{4}$ oz., instead of 6d. the prepaid rate. Unpaid letters addressed to or posted in Sardinia are, on delivery, charged with 6d. beyond the ordinary postage, as a fine. Unpaid letters sent to or received from Belgium are, on delivery, charged 8d. per $\frac{1}{2}$ oz. when conveyed by direct packet; and 10d. per $\frac{1}{2}$ oz. when conveyed by way of France. Unpaid letters sent to or received from Spain, the Balearic or Canary Islands, and those received from Portugal, Madeira, and the Azores, by packet or private ship, are charged on delivery with double the prepaid rates. Letters to or from Canada, Nova Scotia, New Brunswick, Newfoundland, Prince Edward's Island, Labuan, Turk's Island, Gold Coast, Sierra Leone, Cape of Good

Hope, Mauritius, and India, and those sent to Alexandria, Cairo, and Suez, by British packet, and to Bermuda, posted wholly or partially unpaid are charged upon delivery with the deficient postage, and 6d. additional as a fine.

89. Letters to or from Ceylon, Australia, Tasmania, New Zealand, British West Indies (except Turk's Island), Honduras, Malta, Gibraltar, Hong Kong, and St. Helena, posted wholly unpaid or paid less than one rate, are detained and returned to the writers for postage; but those on which one rate, although not the whole postage has been paid by stamps are forwarded charged with the deficient postage, and 6d. as a fine.

90. Unpaid Letters sent to or received from the following places, via Belgium, are charged with a rate of 8d. per $\frac{1}{2}$ oz., viz., Prussia, Austria, Hamburg, Bremen, Lubeck, Bavaria, Saxony, Wurtemburg, Mecklenburg-Strelitz, Oldenburg, Luxemburg, and Brunswick.

Time for Posting.

When the time for despatching a Colonial or Foreign Mail is marked "Afternoon," the latest time for posting letters to be forwarded by it at the Head Office, George Square, is 5.15 P.M., or at the Receiving Offices and Pillar Letter Boxes 4.30 P.M. When marked "Evening," the latest time is 7.20 P.M. at the Head Office, and 6.20 P.M. at the Receiving Offices and Pillar Letter Boxes.

Newspapers going abroad must be posted within fifteen days from the day of publication.

SUGGESTIONS TO THE PUBLIC, &c.

91. Facility is given to the Post Office in the discharge of its daily duties, and greater security afforded to the public, by careful attention to the following recommendations:—

1st. To post all letters, &c. as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

2nd. When several letters are sent by the same person for registration, they be accompanied with a list in duplicate of the addresses; one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer. This practice (which is adopted by many bankers) saves time both to the public and to the department.

3rd. To make the address legible* and complete, giving the name of the post town, and if there be more than one town in the kingdom, of that name (but not otherwise) adding that of the county. Letters posted in one part of the United Kingdom, and intended for another part (as, for example, letters posted in Scotland and intended for England or Ireland) should have the name of the country to which they are sent added to the other part of the address. The number of the house too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur

* As an instance of miscarriage owing to the want of legibility, it may be mentioned that badly directed letters intended for Belgrave, have not unfrequently been sent to Belgrade.

again and again, they tend greatly to retard the general distribution. In the case of letters for places abroad, the name of the *country* as well as the town or city should be given in full. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when there are towns of the same name in different countries: For example —a letter intended for London in Western Canada, North America, but simply addressed "London, W.C.", would be forwarded to the West Central District of the Metropolis in England, and thus be delayed.

4th. Every letter, newspaper, or other packet sent by post should be securely folded and sealed.* It should be remembered that every such packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be inclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. The observance of this precaution is especially necessary when any fragile articles of value are forwarded by post; these should always be inclosed in a wooden or tin box. Owing to the neglect of these precautions, many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.

5th. To prevent newspapers from slipping out of their covers, care should be taken to fasten the covers firmly. When, for additional security, the address is written on the newspaper itself, such address must, in case of re-transmission, be cut off; otherwise the newspaper will become subject to letter postage. It is not sufficient that the old address be obliterated, as the rules forbid writing or marks of any kind in addition to the true address. This applies to newspapers bearing the impressed stamp, newspapers prepaid by postage stamps, and treated as any other printed matter. If, however, the newspaper be franked by a postage label, and not addressed to a place abroad, it is not necessary to cut off the address, since in such cases writing not of the nature of a letter is permitted.

6th. When money or any other article of value is to be transmitted through the post, it should be sent either by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin. Every letter which contains money or other valuable article, even when registered, ought to be securely sealed.

7th. To provide a letter-box.

8th. In case of removal, to furnish the particulars of the new address, in a letter properly signed, either to the postmaster or to the letter-carrier of the district.

9th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish information as precise as possible in regard to all the facts of the case, and to inclose whatever documents may

throw light upon it. The day and hour at which the letter or newspaper was posted, as well as the office at which and the person by whom this was done, should always be stated; and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error, and of guarding against a repetition of it, is supplied by those who alone are able to do so.

10th. Every letter to contain the full address of the writer, in order to insure the return of the letter if the *person to whom it is directed cannot be found*.

92. Whilst trouble and loss are too often caused by the carelessness or dishonesty of some of the twenty-three thousand servants of the Post Office, yet the instances are not few in which it has been shown, to the satisfaction even of the complainant, that the fault attributed at first sight to the Post Office, rested really in other quarters.

93. The publisher of one of the London papers complained of the repeated loss in the Post Office of copies of his journal, addressed to persons abroad. An investigation showed that the abstraction was made by the publisher's clerk; his object apparently being to appropriate the stamps required to defray the foreign postage. In another case a general complaint having arisen as to the loss of newspapers sent to the Chief Office in St. Martin's-le-Grand, the investigation led to the discovery of a regular mart held near the office, and supplied with newspapers by the private messengers employed to convey them to the post. Again, a man was detected in robbing a news-vendor's cart by volunteering on its arrival at the entrance of this office to assist the driver in posting the newspapers; instead of doing so, he walked through the hall with those intrusted to him, and upon his being stopped, three quires of a weekly paper were found in his possession.

94. Depredations so impudent and systematic are not likely, whoever the perpetrator may be, to remain long undiscovered; but isolated cases of theft by private hands are often brought to light, although necessarily very difficult of proof on the part of the Post Office, upon which no doubt the blame for a time rests; and it is greatly to be desired that those who have suffered loss should, in the first instance, and whilst the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the letters or papers in question, and communicate that information to this department. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Post Office or not.

95. The Post Office is a department which admits of constant improvement and expansion; and the public, by sending to the Post Office clear and correct information respecting faulty arrangements, may aid in the accomplishment of these objects. It is not, however, always borne in mind that changes in machinery so extensive and intricate as that of the Post Office must be made cautiously, and with much previous consideration.

96. The arrangements of the service, even in districts widely separated, are so much dependent upon each other, and economy of time (one of the first

* The most secure mode of sealing, in the opinion of the practical officers of the department, is first to wafer the letter and then to seal it with wax.

objects in all postal organization) requires that they should be so nicely adjusted, that no alteration can safely be made without a close examination of all its consequences, and the utmost completeness of preparation; for as on the one hand experience proves that almost every improvement made shows the way to further amendment, so, on the other, it will be found that an ill-considered chance, though it may give a partial advantage in one quarter, will almost invariably lead to dislocation and confusion in others.

97. This, of course, involves a reference to every district or community which may be affected, often distant from the metropolis; and entails the necessity of reports from various quarters, which must be considered, compared, and in many instances tested by experiment before a safe decision can be arrived at. Even then negotiations with railway companies or coach proprietors may have to be entered into, tenders invited, new contracts made, and old contracts, requiring notice of termination, got rid of, before the decision can take effect.

98. The proper execution of a great portion of these duties not only requires high ability, diligence, and precision on the part of the officers intrusted with them, but is also (and it is this which more immediately concerns the public) a work of time. Hence it has frequently happened that the necessity for a change has been recognized in the General Post Office, that investigation has been set on foot, and measures of improvement have been taken before any public demand had arisen; such demand even having been suggested by these very proceedings.

99. It is often assumed that a Mail conveyance, passing by or through a place, however small, ought, as a matter of course, to deposit the letters directed thereto; the practice being that until the mail arrives at the head post office of the district the letters in question are not separated from the other letters of the district. A slight consideration of the nature and objects of the Postal Service will show that such separation cannot be effected in any other way, unless, indeed, the Mail conveyance, even supposing it to be but a mail cart, were converted into a travelling post office, and furnished with clerks of unlimited local knowledge (which is plainly impossible), or unless every town and village in the kingdom having any correspondence with the place in question were to make up a bag for that place;

in which case its mail would contain nearly as many bags as letters.

100. It happens from time to time that, owing to the stream of postal communication having been diverted from the old mail road to a line of railway, or from other causes of like nature, it becomes desirable to reduce the post office of a town from the condition of a principal office to that of a sub-office. This step not unfrequently gives rise to complaints; the inhabitants being under the impression that they will not in future be so well served. This is a misconception. The change is not made when it will subject the correspondence to delay; nor does it cause any withdrawal of accommodation in respect to Money Orders. It is, in fact, simply a departmental arrangement, which consists in carrying on the sorting of the letters for the new sub-office at some intermediate office, instead of sending them in direct bags.

101. A frequent error is to assume that the Postmaster-general has some control over the delivery, charge, and other postal arrangements in the Colonies, and even in foreign countries; whereas the British Post Office is as powerless abroad, except at Malta and Gibraltar, as the Foreign or Colonial Post Offices are here.

102. Another misconception, which occasionally causes trouble and disappointment, consists in assuming that a discretionary power can be intrusted to subordinate officers to remit penalties or overcharges in special circumstances. Cases will undoubtedly occur in which strict observance of a general rule may inflict more or less injustice upon individuals, and where a dispensing power immediately at hand might furnish a remedy; but in an establishment as large and as widely spread as the Post Office, there will always be many subordinate officers, some of them carrying on their duties beyond the easy reach of any supervising authority, who are not fit depositaries of such a power, affecting, as it would to a great degree, the public revenue. It therefore becomes necessary to lay down definite and precise rules from which no departure can be allowed, except under sanction of the Postmaster-general; and in the few instances in which these rules press hardly, appeal must be made to the General Office. It must be added, that in many instances even such appeal is necessarily fruitless, the Postmaster-general being bound to a particular course by positive law.

MAILS FOR THE ORKNEY ISLANDS.

From the 1st April to the 30th September the mails are despatched daily, excepting Sunday, from Thurso, in Caithness, at 2.35 P.M., returning from Stromness at 4.45 A.M. During the winter months, however, the mails are despatched on alternate days only, from Thurso at 3.45 P.M., and from Stromness at 10.45 A.M. The distance is 30 miles.

MAILS FOR THE SHETLAND ISLANDS.

The mails for the Shetland Islands are despatched from Aberdeen every Friday evening, arriving at Kirkwall on Saturday and at Lerwick on Sunday morning; returning from Lerwick to Aberdeen every Monday at 6 and 10 P.M. alternately, and from Kirkwall to Aberdeen every Tuesday at 6 A.M., during the summer from April to October. In winter the mails are conveyed direct from Aberdeen to Lerwick by a sailing packet, the despatch and arrival of which are uncertain. The distance direct is about 200 miles.

Crawfurd, clerk of the peace; George Gray, deputy-clerk.

SHERIFF SMALL DEBT COURTS,

For the recovery of Debts not exceeding £12, sits every Monday, Wednesday, and Thursday, for Glasgow, and on Tuesdays and Fridays for Lanark, Hamilton, and Airdrie; and have jurisdiction over the whole of Lanarkshire. The Defendants are cited before this court on an indicia of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrests used upon it instantly; and it may be enforced, in all cases, by poinding, sale, and imprisonment, when above £8 6s. 8d., of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff Clerk of the county to which he removes. Judges—Sheriff and Sheriff-substitutes of the county.

Note.—The Act authorizing imprisonment for Small Debts expired in 1840 for sums under £8, 6s. 8d., excepting claims of aliment.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form (the Clerks of Court will provide the necessary forms), the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, or by officers of Court, without special leave of the Court, or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decreed for in cases before Justices, and in cases before

Sheriff by consigning 10s. of expenses, on applying within three months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning 2s. 6d., if the case be before the Justices; and the expenses decreed for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defendant offering a suitable excuse, or if any witness be absent.

If decree be given against the defendant, diligence may proceed against him by arrestment instantly; and by poinding, sale, and imprisonment, if above £8 6s. 8d., at the end of ten days before the Sheriff; and by poinding and sale instantly, before the Justices.

If decree be given against the defender, in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decreed for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitor or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrests; but in such actions both the defendant and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

GLASGOW MODEL SCHOOLS & TRAINING COLLEGE,

234 GEORGE STREET.

The first object of this Institution is to give a first-class education on moderate terms, and at the same time to be self-supporting; accordingly the best masters are employed, and the fees are strictly within the means of the middle classes, while all elemosinary or govermental aid is repudiated, so that no government or other irresponsible official is allowed to exercise any control, but the teachers are responsible to the parents who may and are expected to visit the school as often as they see fit.

The second object is to afford to well-educated young men and women, who have a desire to become teachers, an opportunity, at a moderate expense of time and money, of becoming acquainted with, and mastering the practical difficulties of the teacher's calling. Young men who are attending either university, and having views to the teaching profession, will find here, at a moderate fee, every facility of acquiring a knowledge of the details of school management. This department of the Institution is placed under the control of a committee.

FARES.

It shall be in the option of the owner or driver to charge by time or distance.

Fares by Distance.—The distance to which any hackney carriage may be driven under these by-laws, shall be five miles from the cross of Glasgow.

When a party not exceeding two grown-up persons, and without any luggage other than a carpet bag, or the like, enters a carriage at a stand (not being one of the Railway Stations) or when driving along disengaged, they shall be driven half a mile for Sixpence, and if they return, they shall pay another Sixpence.

Excepting the Sixpenny fare, as above, the fares by distance shall be shown in the annexed Table of Fares (No. 2). The charge in the Table shall include going from the nearest stance to the hirer's residence, and waiting ten minutes. But if the carriage be detained before starting more than ten minutes, a charge of waiting at the rate of Sixpence for each quarter of an hour, or part thereof, after the expiry of the ten minutes, shall be allowed, and if the place where the hirer is to be lifted be above three hundred yards beyond the nearest stance whence the carriage is taken, there shall be a charge of Sixpence extra.

When any place is not mentioned in the Table, the fare shall be the same as that to any place mentioned which may be in the immediate vicinity, not being a greater distance.

Half-fare returning.

When parties return (which they shall have the option of doing), and the fare going is One Shilling,

the carriage shall wait ten minutes without any charge for waiting; when One Shilling and Sixpence, fifteen minutes; when Two Shillings and upwards, twenty minutes. If the carriage be detained longer, a charge shall be allowed for waiting, at the rate of Sixpence for every twenty minutes, or part thereof, commencing at the period when the free waiting expires.

When a carriage is called, but not used, a charge of Sixpence shall be allowed, if the place to which it is called be under half a mile from the stance, and One Shilling if beyond that.

Fares by Time.—For *bonâ fide* shopping, making calls and the like, where the driving is not continuous, the charge shall be One Shilling for the first half hour, and Sixpence for every additional quarter of an hour.

For an airing in the country, within five miles from the Cross, and returning either by the same or a different road, the rate shall be Sixpence for every ten minutes. Unless the hirer wishes a slower pace, the rate of driving, when out an airing, shall be at least six miles an hour. If the airing go beyond five miles, the duty to be paid in addition.

Whether the Fares are by Distance or by Time.—The hirer pays tolls.

If there be more than four grown persons driven, a charge of Sixpence extra shall be made for each additional grown person, and a charge of Sixpence for each two children above six years of age. No additional charge for one child above six, or children under six.

For luggage, exceeding 56 lbs. in weight, there shall be a charge of Sixpence extra; but there shall be no charge for luggage under that weight. The driver shall assist in loading and unloading in all cases when required.

From eleven at night till two morning, fare and a half; from two till five morning, double fare; after five o'clock, the ordinary fare.

Owners or drivers may agree to drive at lower fares than those fixed. In that case, should they demand more than the fare agreed upon, they shall be liable as for an overcharge.

No charge for drivers.

Fare may be withheld.—Any party shall be entitled to withhold payment of the fare—

2nd. When the reference ticket is not offered on entrance,

3rd. When the by-laws and table of fares are not shown on demand. And

BRITANNIA LIFE ASSURANCE COMPANY,

NOS. 1 PRINCES STREET, BANK, LONDON,

And 46 RENFIELD STREET, GLASGOW.

ESTABLISHED AUGUST 1, 1837.

EMPOWERED UNDER A SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

GREAT ADVANTAGES OF THIS INSTITUTION.

THE Rates of Premium are on the lowest Scale consistent with stability, and so varied as to accommodate the views of every class of insurers.

This Institution is empowered under special Act of Parliament, and so constituted as to afford the benefits of Life Assurance in their fullest extent to Policy Holders, and to present greater facilities and accommodation than can be obtained in any similar Establishment. Increasing and decreasing Rates of Premium on a new and remarkable plan have been constructed, peculiarly advantageous for securing loans or debts. By the former mode, a less immediate payment is required on a Policy than in any other office, and the amount of future payment optional with the Assurer.

The following important improvements on the ordinary system of Life Assurance have been adopted by the Britannia Company, and are recommended to the particular attention of the public:—

Age of the Assured in every case admitted in the Policy.

All claims payable in Three Months after proof of death, while other Offices take Six Months to consider this momentous question.

Medical Attendants remunerated by the Company in all cases for their reports, by which an important saving is effected to parties insuring.

No charge made for Policies or Admission Fees.

Policies revived within Twelve Months after expiration, on evidence of unimpaired health, without payment of the FINE demanded by other Offices.

Premiums may be paid Half-Yearly or Quarterly, and payments may be made to terminate after five, ten, or any other number of years required.

A Board of Directors in attendance Daily at two o'clock.

Thirty days allowed for Renewal of Policies. And in case any person Assured shall die within the said space of Thirty Days, and the party holding Policy from the Company, or his representatives, or any other person on his or their behalf, the Policy will be as valid and effectual as if the Premium had been paid when due, and in the lifetime of the person Assured.

The business of the Company in Scotland is so constituted as to confer all the benefits of purely Scotch Offices, and may sue or be sued in the Scotch courts, and does not require Probates, or Letters of Administration, on the lapsing of Policies.

Parties Insuring with this Company can deduct the Annual Premiums on their own and their wives' lives from the amount assessed upon for Income Tax.

Ladies and others, to whom it may be inconvenient to attend at the office, visited by one of the Medical Officers.

Assurances perfected on the same Day they are proposed.

EXTRACT FROM NO. I.

Table of Equal Rates of Premium, which may be paid to this Company in any way most suited to the convenience of parties insuring:—

Age of the Assured.	Annual Premium required by old Offices sharing profits for Policy of £100.	The ordinary rate of the old Offices not sharing profits.	Reduced Premium of the Britannia Company.	Saving per Cent. by insuring in the Britannia Company, equal to an immediate Bonus of 25 to 30 per Cent.

40	3 7 11	3 6 0	2 15 1	0 14 0

This table exhibits at a glance a very important saving to the Insurer, fully adequate to insure AT ONCE one-third more principal sum than can be secured for the same premium in Offices sharing Profits to be realised, and in which it should be borne in mind, that should the life drop prematurely, no Bonus would have accrued; consequently the whole extra Premiums charged above the Britannia Company's rate would have been sacrificed, without yielding any commensurate advantage to the Insurer.

The BRITANNIA COMPANY prefer giving a direct and immediate advantage to the public by a fair reduction of rates, rather than inviting those to become partners who can have neither leisure nor inclination to understand or investigate their own rights. These advantages may be observed in the following scale, where the absolute saving to insurers in the Britannia Company is made to appear, supposing the sum to be insured One Thousand Pounds at any of the following ages:—

Age of the Assured.	The Annual Premium on £1000 in Offices dividing profits.	Sum Assured in the Britannia Office for the same Premium.	Certain and immediate Bonus secured in the Britannia Company on a Policy of £1000.

* * This table, as will be obvious from the following illustrations, presents New and Important features in Life Assurance. (Vide the Company's Prospectus, which may be had gratis on application, either personally, or by letter, to the Company's Agent as under.)

By this plan of Insurance the public are vastly convenience, increased facilities afforded, and every possible contingency or disappointment anticipated for the protection of the Assurer, with less immediate payment for the first five years than in any other Office, and the amount of subsequent payments left optional with the Insurer, an important advantage not given to the Policy Holders of any other Company.

If the Life assured drops within the first period of five years, the sum he receives is almost equal to a gratuity. If in the second, he derives still a considerable benefit; and if he should live even to the last period, he has, notwithstanding, made his Assurance on advantageous terms. Again, if the Assurer should become unable to advance his premium, or that it is inconvenient for him to do so, he drops into the alternate scale—namely, a proportionate reduction of the sum assured, whilst it is only fair to remind him, that in other Companies adopting the increasing Rates of Premium, no such alternative exists. The insurers with Offices adopting that principle, are called upon without any excuse or consideration of circumstances, to advance their Premiums AFTER THE FIRST FIVE YEARS (when all accommodation has ceased), whether they are able to do so or not, otherwise their policies are forfeited, and all their previous payments lost to them for ever. The rate of reduction in the sum assured after the first five years, should the premium be not advanced, will appear by the following abstract, taking the sum assured at £1000, the whole amount insured being payable by this Company, should death previously occur, without any deduction whatever:—

If the Insurer dies after the first period of five years, without increasing his premium, it will be reduced one-eighth to.....	£875, principal sum.
If he shall die after the second period of five years, without increasing his premium, it will be reduced one-fourth to	£750, ditto.
If he shall die after the third period of five years, without increasing his premium, it will be reduced three-eighths to.....	£625, ditto.
And if he shall die after the fourth period of five years, without increasing his premium, it will be reduced to	£500, ditto.
After this period, no further reduction can be made on the amount assured.	

* * This Company assures the Lives of Officers and others travelling to, or residing in, any part of the world.

Emigrants to Australia and the Colonies may effect Insurances on their Lives at the lowest current rates, and every contingency affecting human life negotiated on equitable principles.

The progressively increasing patronage enjoyed by the Britannia Company during the past years (no doubt induced by the many important advantages it affords), renders it an imperative duty on the undersigned thus publicly to express his sincere acknowledgments to the public; and in soliciting a continuance of the same favours, he most respectfully begs to direct attention to the fact that, during the past years the number of Policies issued have not been exceeded by any Life Office in the Kingdom.

* * Medical Officers (who are in constant communication with the Agent as under) have been appointed in the principal Towns throughout the Kingdom, with the view of affording the utmost expedition to parties effecting Insurances, and to obviate the inconvenience of personal appearance at the Office.

The uniform promptitude and liberality observed in the adjustment of all claims on this Company, the extreme attention and expedition in effecting Insurances, guided by equitable and honourable principles, with the lowest and most accommodating rates of premium that stability can admit of, have deservedly obtained for this Institution such a decided preference over its numerous competitors.

Proposal Forms for effecting Insurances, Prospectuses detailing the many advantages of the Company, with every information respecting the Rates of Premium for Home and Foreign Insurances, Survivorships, Joint Lives, and every other contingency affecting human life, may be had on application to

The Directors invite particular attention to the liberal Terms and Conditions of Assurance introduced by this Company into the Practice of Life Assurance.

SELECT ASSURANCES.

The privileges of this class are—Permission to travel and reside in any part of the world, *free of extra Premium*; and the cancellation of all conditions under the Company's Policies, which thus become unchallengeable on any ground whatever, except non-payment of the ordinary premium.

Assurances of five years' standing are admissible to this class.

RENEWAL PREMIUMS AND DAYS OF GRACE.

Under these regulations, Policies of Five Years' standing, with certain exceptions mentioned in the Company's Prospectus, cannot be forfeited unless the ordinary Renewal Premium remains unpaid for Thirteen months. Thirty days is the regular period allowed for payment; but should the Thirty days have been exceeded, the arrears can be paid at any time within Thirteen months from the date when the Premium fell due, on payment of a fine, without a medical certificate. Should death have taken place within the Thirty days, or Thirteen months before the renewal of the risk, the Company hold themselves liable, the arrears and fines, if any, being deducted at settlement. After the expiry of the Thirteen months the Policy is forfeited, but the surrender value is held at the disposal of the parties interested for five years from the regular date of renewal. The privileges of renewal under Policies of shorter duration than five years are very liberal.

SURRENDER VALUES.

Liberal allowances made for surrender of Assurances under the Profit Scheme, at any time after payment of one Annual Premium.

LIFE DEPARTMENT.

THIS COMPANY, which has maintained a large share of the public favour, has for more than half a century done a large and increasing Fire business, to which branch of business the Company was limited till 1833, when the Life Branch was adopted. Since then three Bonuses have been declared upon the Policies effected, with Participation of Profits, under the latter Branch, and at each division

INCREASED BENEFITS HAVE BEEN ALLOCATED TO THE ASSURED.

This is a surer test of the prosperity of a Company than any other, provided the principles of the investigations of the Company's Business, when the Bonuses are declared, are of a sound character. These, in the case of this Company, have been conducted under the highest authority, and with the strictest accuracy, and it is confidently hoped that at the next Investigation further increased Benefits will be allocated to the Assured.

The Life Funds are kept quite distinct from those of the Fire Department, while they are almost wholly invested in Government or Landed and Heritable Securities.

The Assured may, without License or extra Premium, pass in time of peace from one part of Europe to another by sea or land, and, upon application, no Extra Premium is charged for voyaging to, or residence in, Australia, Van Diemen's Land, Cape of Good Hope, or America, North of 38 degrees North Latitude; but an Extra Premium is charged for working at the Diggings. Moderate Extra Rates are charged for voyaging to, and residence in, other foreign parts.

Policies are made indisputable under certain exceptions after being five years in existence.

VOLUNTEER RIFLE AND ARTILLERY CORPS.

The Assured with this Company, in case of invasion, falling in the service of their country, will have the full benefit of their Policies.

FIRE DEPARTMENT.

The Company Insures Houses, Manufactories, Rents, Furniture, Goods, and Merchandise, Farming Stock, Shipping in Port and Dock, and while Building or used in Navigable canals, and almost every other description of Property, from loss or damage by Fire, at Moderate Rates.

LOANS granted on Heritable or Landed Securities.

COLONIAL AND FOREIGN ASSURANCES.

THE COLONIAL LIFE ASSURANCE COMPANY was established at Edinburgh in 1846, and introduced new and important features into Life Assurance practice, by publishing rates calculated for Foreign residence, and by establishing Agencies abroad, thus affording increased facilities to persons whose views or occupations might lead them to travel or reside in other countries. By its means, also, the benefits of Life Assurance were extended to India and to the Colonies of Great Britain generally, on such beneficial terms, and under such liberal conditions, as improved knowledge and the circumstances of the times authorized and required.

The progress of the business has been most successful and satisfactory in every respect, and its extent has proved how greatly such an institution was wanted.

THE RATES OF THE COMPANY for Colonial and Foreign residence will be found moderate, and looking to the facilities and advantages afforded by the Company, they may be considered more advantageous, and virtually less expensive, than those of any other Office doing business abroad.

For the purpose of giving increased facilities, also, in the Company's transactions, the Directors have formed Local Boards of Management, and Branch Offices, in India and the Colonies, where Assurances may be effected, Premiums paid, and claims settled.

HOME ASSURANCE.

THE DIRECTORS of the COLONIAL LIFE ASSURANCE COMPANY having directed much attention to the CLASSIFICATION OF RISKS in connection with LIVES ABROAD, in which they have been most successful, have turned their attention to the CLASSIFICATION OF HOME RISKS, so as to give Professional Men, and settled persons of all classes whose occupations are not likely to call them beyond the limits of Europe, the advantage and privilege of possessing Policies, unfettered by restrictions as to foreign residence, on terms which the absence of such extra risks authorizes them to adopt.

The Directors have, in accordance with these views, resolved to grant to Persons resident in this country, whose occupation, profession, or calling, infers a residence in the United Kingdom, and who declare that they have no intention or prospect of going abroad,

Policies without any Restriction as to Residence.

It is not possible to state exactly the Professions which this Class will embrace, and much will depend on the features and particulars of each case; but the Directors may mention a few Professions and Occupations which the new Class will include:—COUNTRY GENTLEMEN, BARRISTERS AND ADVOCATES, SOLICITORS,

AND OTHER LAW AGENTS, SETTLED MEDICAL PRACTITIONERS, BENEFICED CLERGYMEN, MANUFACTURERS, AGRICULTURISTS, RETAIL SHOPKEEPERS, and others of like position; it being a rule, however, that no Policy under this class shall be issued on the life of any one below the age of 25, unless he shall have settled in life.

The Home Rates of Premium are moderate. For example—

	Age 25.	Age 35.	Age 45.
With Profits,.....	£2 1 0	£2 13 10	£3 14 2 per cent.
Without Profits,.....	1 17 7	2 9 4	3 7 11 "

DIVISION OF PROFITS.

The first Division of the Company's Profits took place as at 25th May, 1854, and the second as at 25th May, 1859, when large additions were made to all Policies effected in the Participation Scheme of the Company, as shown in the following Table, the examples being Policies of £1000:—

Policies opened before	Original Sums Assured.	Bonus.		Total Bonus Additions.	TOTAL.
		Eight Years, 1846 to 1854.	Five Years, 1854 to 1859.		
25th May, 1847...	£1000	£160	£75	£235	£1235
" 1849...	1000	120	75	195	1195
" 1851...	1000	80	75	155	1155
" 1853...	1000	40	75	115	1115
" 1855...	1000	—	75	75	1075
" 1857...	1000	—	45	45	1045
" 1859...	1000	—	15	15	1015

The additions to Policies of larger or smaller amount are in the same proportion.

Those who do not wish to add the amount of the Bonus to the sum assured, are permitted to take the value of the addition in a present sum, or to apply its value for five years to the reduction of the Annual Premium.

THE PRESENT INCOME of the Company is upwards of One Hundred and Twelve Thousand Pounds Sterling per annum, and the ACCUMULATED FUND Four Hundred Thousand Pounds Sterling.

Every information regarding the Company will be furnished on application to any of the Branch Offices or Agencies.

THIS Company has attained a very high position amongst the Insurance Institutions of Great Britain.
 Its Annual Revenue exceeds £500,000; its Invested Funds amount to £1,260,000.

FIRE DEPARTMENT.

The Premiums exceed £310,000 and place it in the first class of Fire Offices; its liberality and promptitude in settling claims have been established in the adjustment of enormous losses; and its influence in determining rates of Premium has uniformly been given to proposals for improving the character of risks that high Premiums may be unnecessary.

LIFE DEPARTMENT.

The Reserve in this Department has been increased by the addition of upwards of £58,000 in the year 1860 alone. The system of Bonuses is simple, involving no possible liability of Partnership; liberal, guaranteeing a more than average amount of benefit; satisfying, because known at the date of the Insurance, and, therefore, free from disappointment, uncertainty, and doubt. The arrangements in other respects are intended to render Policies of the LIVERPOOL AND LONDON perfect securities in the hands of third parties. The Annual Premiums exceed £130,000; the Accumulated Reserve is £707,000.

ANNUITIES.

The payments by the Company exceed £19,000 per annum. Every facility is afforded to persons purchasing Annuities to enable their Receipt at such times and places as may be convenient, and the terms and rates will be found satisfactory.

THIS Society is conducted on the principle of Mutual Assurance; and there being no Proprietary Body, the whole of the Profits belong exclusively to the Members.

A Division of Profits is made every year, and all Members' Policies upon which five full Yearly Premiums have been paid are entitled to participate therein, either by a reduction of the Premium for the current year, or by an equivalent Reversionary Addition to the Sum Assured.

The Reduction in Members' Premiums for the year 1861 is at the rate of £40 per Cent., thus leaving only 12s. in the Pound of the Premiums to be paid.

The Society's Capital, accumulated solely from the Premiums, amounts to £378,000, after providing for all claims and expenses; and the Annual Income from Premiums and Interest on the Capital, to £66,660, thus affording the fullest security to the Assured for the due fulfilment of the Claims as they arise.

The Society has paid to the Representatives of deceased Members about £475,000, in addition to upwards of £206,000 returned to Members as profit and applied to the Reduction of their Premiums.

No charge is made to Members beyond the amount of their Premiums.

Medical Fees and Policy Stamps are paid by this Society.

Twenty days' grace are allowed for Payment of Renewal Premiums.

Policies remain in full force during the days of grace.

A portion of the Premiums on whole Life Policies may remain unpaid, at Interest.

The Society makes no extra charge for Members of Volunteer Rifle Corps serving in the United Kingdom.

A general Statement of the Society's Accounts, with full Prospectuses, and further information, may be obtained on application at the Head Office, or of the Society's Agents.

LIFE DEPARTMENT.

PERSONS Assured for the whole term of Life, for £100 and upwards, in Great Britain or Ireland respectively, will have an addition made to their Policies every Fifth Year (instead of every Seventh, as heretofore), or an equivalent reduction will be made in the future payments of premium, at the option of the Assured.

At the last valuation, up to Christmas, 1859, there existed a SURPLUS of £270,295—the whole of which belonged to the Policy-holders.

The next valuation will be made up to Christmas, 1864. Policies on the Participating Scale, in England or Ireland respectively, which may be effected before that date, will, if the parties be then alive, participate in the surplus in proportion to the time they may have been in force.

Policies may also be effected for the whole term of life, by payments yearly or half-yearly, also by a limited number of yearly payments—a mode of Assurance which originated with this Company in 1816.

Policies may be effected at Reduced Premiums, *without participation* in the Bonuses.

Assurances for short periods may now be effected in this Office at considerably reduced rates of Premium. The Directors have the satisfaction of stating—

That the INCOME of this Branch for the year 1859 exceeded £190,000.

That the INVESTMENTS for the Life Policy-holders now amount to £1,717,396.

That the Interest and Dividends arising therefrom are invested for the *Sole Benefit* of the Policy-holders.

The Company has paid to Claimants under Life Policies, from the year 1808 to the close of 1859, the sum of £3,506,171, of which a very considerable proportion was for *Additions*, by way of Bonus on the sum originally assured.

CHARLES ANSELL, ACTUARY.

FIRE DEPARTMENT.

This Company undertakes the Assurance of almost every species of Property in the United Kingdom, at rates of Premium, and upon principles which will be found quite as advantageous to the interests of the Assured as those offered by any other Office. The Directors can confidently refer to the well-known character of the Company for liberality and promptitude in the discharge of claims made upon it during the many years it has been established.

Manufactories, Sugar Houses, Distilleries, Private or Public Warehouses, Ships Building, Ships in Harbour, Houses, Furniture, Stock-in-Trade, &c., assured for the year, or any shorter period.

The Policies of this Company cover Losses occasioned by the Explosion of Gas; Losses occasioned by Lightning will also be paid.

Duty paid to Government by the Atlas Assurance Company for 1859, on Fire Assurance in the United Kingdom, £45,146.

Tables of Rates, Forms of Proposal, and any information needful to effect Life or Fire Assurances, may be obtained on application to the Office, No. 92 Cheapside, London; or to any of the Company's Agents.

THE DIRECTORS invite public attention to the increased benefits secured to Policy-holders in this Office by the Resolutions recently adopted by the Proprietors, founded on the experience of the TWENTY-ONE YEARS now completed since the establishment of the Association in 1839. By these Resolutions the periods of INVESTIGATION have been shortened from SEVEN to FIVE YEARS;—the proportion of PROFIT given to the ASSURED has been increased to NINE-TENTHS of the whole;—the previous restrictions in regard to the time of PARTICIPATION in PROFITS have been removed;—and other arrangements have been made which secure to every Policy-holder, to the fullest extent and in the most satisfactory way, all substantial benefits actually attainable under the system of LIFE ASSURANCE. Prospectuses explanatory of the NEW ARRANGEMENTS may be had on application.

The INVESTED FUNDS of the Office now amount to upwards of £440,000.

The Results of the Third Investigation as at Christmas 1860, which is now in progress, will be declared in June next, when the consequent Division of Profits will take place.

The ASSOCIATION transacts every description of LIFE ASSURANCE and ANNUITY business, and secures ENDOWMENTS payable at any period of Life. LOANS are also granted on Approved SECURITIES. Liberal provisions have been made for FOREIGN VOYAGING or RESIDENCE, on Civil, Naval, or Military Service.

Parties now Assuring with this Company will be entitled to share in the Profits to be divided as at 31st January, 1862.

LIFE DEPARTMENT.

THE arrangements of this Office are based on principles that have been verified by experience.
 The rates for assurance of fixed sums are very moderate.

Extra Premiums for Foreign Residence have been dispensed with to a great extent, and a very important rule has been adopted to protect the interests of parties holding Policies on the Lives of others, who may incur extra risks without the knowledge of the holders.

For surrender of Policies of the ordinary class, after three years' endurance, a liberal return of Premiums, according to a fixed rule, is *guaranteed*, besides the value of vested Bonuses where such have been declared.

According to the constitution of the Company, Investigations must be made at intervals not exceeding five years. The last investigation took place at 31st January, 1857, when Bonuses were added to all Assurances of the Participation Class; and the following results of this and previous declarations may be stated.

1. A Policy for £1000 on which 7 years' premiums had been paid was increased in 1857, to £1095 9 4.
2. A Policy for £1000 on which 12 years' premiums had been paid was increased to £1163 10 8.
3. A Policy for £1000 on which 17 years' premiums had been paid was increased to £1234 18 2.

A further Bonus is also payable on Policies, to which vested additions have been made, becoming Claims before next Investigation—an arrangement which secures for such cases advantages similar to those of Annual Investigations.

Prospectuses, with every information, and forms of proposal may be obtained at any of the Offices or Agencies of the Company.

NORTH BRITISH FIRE AND LIFE INSURANCE COMPANY.

ESTABLISHED IN 1809.

INCORPORATED BY ROYAL CHARTER AND SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION.

Accumulated Fund, £1,090,730. Annual Revenue, £193,740.

HEAD OFFICE, EDINBURGH.

GLASGOW OFFICE—102 ST. VINCENT STREET.

PRESIDENT.

HIS GRACE THE DUKE OF ROXBURGHE, K.T.

VICE-PRESIDENTS.

The Most Noble the Marquis of ABERCORN, K.G.—The Right Hon. the Earl of STAIR.

LIFE DEPARTMENT.

THE NORTH BRITISH INSURANCE COMPANY, as a Life Office, was established in 1823. The principles on which it was founded, and on which it continues to act, combine the system of MUTUAL INSURANCE with the safety of a large PROTECTING CAPITAL, and thus afford all the facilities and advantages which can prudently be offered by any Life Assurance Office.

In virtue of the Guarantee afforded by its Capital, the Company can adopt rates lower than what are practicable by a purely Mutual office; while, in virtue of the principle of giving the insured, *in their option*, a right to a share in the Profits, they derive the same, or even a greater benefit, than if they actually belonged to a Mutual office.

The Premiums are regulated on these two principles—either a party may pay a higher rate, and secure the benefit of a share in the Profits, or he may adopt a lower rate, while he has absolute security for the payment of the amount in his Policy.

ADVANTAGES OFFERED BY THIS COMPANY.

1. Nine-tenths (90 per cent.) of the Profits, or, in other words, the whole of the Profits arising from the Life Business, after setting aside one-tenth for the guarantee, are divided among the Assured entitled to participate.
2. Bonuses may be added to the sum assured, or surrendered for a cash payment, or applied to the reduction of the future Premiums.
3. A prospective Bonus of one per cent. per annum is allowed on Policies which have subsisted for five years, which may become claims previous to the next Investigation in 1865.
4. The sum insured may be made payable at any given age, or at death, if it occur previously.
5. An ascending scale of Premiums, whereby Policies may be effected at the lowest possible rates.
6. On Insurances for a Whole Period of Life, half the Premium may remain on credit for the first Five Years, or one-third during the convenience of the party assured.
7. No Extra Charge for residence in British North America, the Cape, Australia (excluding the Diggings), New Zealand, Port Natal, and parts of the United States; and no license required except for the voyage.
8. On proof of age, and by special application, Policies are declared unchallengeable from and after the expiry of Five Years from their date; and parties, on receiving a license, may go to any part of the world without incurring the forfeiture of their Policies—thus making the Policies of the Company good marketable securities.
9. Advances made on Policies, to the extent of the security they afford, when the value amounts to £50 and upwards.
10. No Entry-Money or other Charge; and Policy Stamp paid by the Office.

NEW AND IMPORTANT ADVANTAGES.

To meet the exigencies of parties, and to render the benefits of Life Assurance more generally available, the Directors have adopted the following new and important principles:—

1. APPLICATION OF PROFITS TO THE PURCHASE OF AN ANNUITY.

By this system a party not only secures the payment of the sum in the event of his death before age 65, but at his option he may convert the Policy with its Bonuses into an equivalent Annuity commencing at 65.

2. HALF-PREMIUM SYSTEM.

By which a party may secure all the benefits of the Half-credit System, and keep the Policy free from the burden of debt.

3. DOUBLE INSURANCE SYSTEM.

By which, for a moderate uniform Premium, a Policy may be secured, which will increase each year until, in 20 years, the sum in the Policy is doubled. This system is particularly advantageous to young lives.

For further explanation of these new principles, and for the Rates applicable thereto, see the Company's Prospectus.

ANNUITIES.

1. IMMEDIATE ANNUITIES are granted on favourable terms.
2. DEFERRED ANNUITIES, to commence at any specified age, may be secured, either with or without return of Premium.
3. SURVIVORSHIP ANNUITIES may be secured, with or without return of Premium.

REVERSIONARY INTERESTS.

The Company are ready either to purchase reversionary interests and Life Rents, or to make advances on them to the extent of the security they afford.

FIRE INSURANCE.

The Company Insure against LOSS or DAMAGE by FIRE all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in harbour or in dock, and Farming Stock of all descriptions, at the lowest rates of Premium corresponding to the risk.

THE Company, established in 1823, has existed upwards of thirty-seven years, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability. See English Law Cases for Call on the Policy-holders in a Mutual Insurance Society for Debts of the Society.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers, in addition to the accumulated and invested fund of the Company, now upwards of Three-fourths of a Million.

NINE-TENTHS of the **WHOLE PROFITS** Septennially divisible among the Assured—a larger proportion than can be divided with safety by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual division are thus given, without its attendant evils.

THE MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon all *first-class lives*, by no undue Bonus being paid away to those *who may die early*.

RATES OF PREMIUM EXTREMELY MODERATE.—The non-participation scale very favourable for security on Loans, or for *partnership* Insurances.

In reference to the next **SEPTENNIAL DIVISION** of this Office in 1863, the special attention of intending Insurers is requested to the **BENEFITS** which the Company's system of Division has conferred on its *Participating Assured*; illustrated in the results of previous Declarations to the old Policy-holders—the *best class Lives*.

The following are a few of these claims now or previously paid, with

BONUSES EXCEEDING ONE HUNDRED PER CENT. ON THE SUMS ORIGINALLY ASSURED:—

Policy Number.	Sums Assured.	Bonuses.	Sums Paid.
266	£300	£822 18 0	£1122 18 0
691	1000	1733 15 0	2733 15 0

44	200	232 18 0	432 18 0
488	1500	1705 17 0	3205 17 0
28	3000	3394 6 0	6394 6 0
647	500	505 3 0	1005 3 0
322	100	122 1 0	222 1 0

Later Entrants have received Bonuses proportionate to their endurance and payments, as illustrated in *Prospectus*.

Bonuses may be surrendered for cash, or applied in reduction of the annual premiums. By this latter course, several of the oldest Policy-holders have redeemed their premiums, with a bonus still attaching to the Policy, and *increasing*.

Medical Officer—DR. ANDREW ANDERSON.

THE Premiums, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are as low as the *Non-Participating* rates of the Proprietary Companies, which they admit of being, not only with safety, but with ample reversion of Profits to the Policy-holders—being free from the burden of Dividends to Shareholders.

EXAMPLES OF ANNUAL PREMIUM TO ASSURE £100 AT. DEATH.

Age—25	30	35	40	45	50
£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
1 18 0	2 1 6	2 6 10	2 14 9	3 5 9	4 1 7

Thus, a person of 30 may secure £1000 at death for a yearly payment of £20 15s., which, if paid to any of the other Mutual Offices, would secure a Policy for £800 only, instead of £1000.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same early outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions.

PROFITS.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, or those whose premiums, with accumulated interest, amount to the sums in their Policies.

In this way Policies originally for £1000, which have shared in two Septennial Divisions, have been increased in some instances to £1780.

Upwards of £11,000 Policies have been issued, assuring over £4,900,000. The accumulated Fund arising entirely from Premiums, exceeds £700,000.

In all points of practice—as in provision for the indefeasibility of Policies, facility of license for travelling or residence abroad, and of obtaining advances on the value of the Policies—the regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the principles, with every information, may be had on application at the Head Office; or at the

ADVANTAGES.

ECONOMY OF MANAGEMENT.—The Expenses of Management of the Lancashire Insurance Company, are the least in proportion to the Income of any of the fifty-two Companies who have rendered their Accounts to the Registrar-General, under the Joint Stock Companies' Act. (*See pamphlet by R. Christie, Esq., Scottish Equitable Office, Edinburgh.*)

The great extent of the FIRE BUSINESS of the Company enables the Directors so to apportion the expenses of management, as to charge the Life Department with its proper costs only, thus giving Assurers with THE LANCASHIRE INSURANCE COMPANY, all the *real* benefits offered by a Mutual Office, without any of its drawbacks.

THE RATES OF PREMIUM are extremely moderate, but calculated by an eminent and experienced Actuary, and are ample on First-class Lives to produce a Large Bonus Fund, which will be Divisible amongst the Assured in 1863.

MEDICAL FEES.—All Medical Fees and other Charges paid by the Company.

STAMP DUTIES not Charged, and Policies are issued *free of any expense whatever* beyond the Premium.

RIFLE, ARTILLERY, MILITIA, OR YEOMANRY CORPS.—Policies will be issued to persons serving in these Corps, free of any additional charge.

FIRE, LIFE, and MARINE ASSURANCES may be effected with this Corporation on advantageous terms. Life Assurances are granted with, or without, participation in profits; in the latter case at reduced rates of Premium.

Any sum not exceeding £15,000 may be assured on the same Life.

The Reversionary Bonus on British Policies has averaged 48 per cent. upon the Premiums paid, or very nearly 2 per cent. per annum upon the sums assured.

The future Divisions of Profit will take place every FIVE YEARS.

The Expenses of Management being divided between the different branches, are spread over a larger amount of business than that transacted by any other office. The Charge upon each Policy is thereby so much reduced as to account for the magnitude of the Bonus which has been declared, and to afford a probability that a similar rate will be maintained at future divisions.

This Corporation affords to the Assured a liberal participation in Profits, with exemption under Royal Charter from the liabilities of partnership—a rate of Bonus equal to the average returns of Mutual Societies, with the guarantee, not afforded by them, of a large invested Capital-Stock—the advantages of modern practice, with the security of an Office whose resources have been tested by the experience of NEARLY A CENTURY AND A HALF.

The Corporation have always allowed the Assured to serve in the Militia, Yeomanry, or Volunteer Corps, within the United Kingdom, free of charge.

FIRE BRANCH.

THE FIRE DEPARTMENT has an Annual Revenue of £80,000; and a large subscribed Capital. INSURANCES against FIRE are received upon nearly all descriptions of Property in the United Kingdom, and in Foreign Countries, more particularly in the Colonies, India, China, United States, the Continent of Europe, South America, and Australia. The Association offers peculiar advantages in this branch of Fire Insurance, from its moderate rates, experience, and the co-operation of its numerous Foreign Agents.

The Rates of Premium in this Department will be generally as moderate as those of other responsible Companies.

LIFE BRANCH.

The LIFE DEPARTMENT has an Insurance Reserve of £77,000, in addition to its Annual Revenue of £27,500.

This Association possesses all the elements required to develop the benefits of Life Assurance, and to extend its advantages to Assurers; and every practicable accommodation that can be honourably and safely carried out by Assurance Companies is afforded to Assurers in this Office.

Thirty days' grace allowed for payment of Annual Premiums, and fifteen days for Half-Yearly Premiums. In the event of a death happening within the days of grace, the Claim will be paid if the Premiums be tendered before the expiry of that period.

Travelling to, and residence in, any part of Europe allowed without any additional charge, and the extra Premium charged for Voyage to, and residence in, any Foreign Country, or for active Naval and Military Service, or any other special risk, are fixed on a moderate basis.

The Scotch BUSINESS having been centralized under Local Managers of experience, in the West and East of Scotland, Assurers are thereby secured all the advantages of a Local Office.

Notices of Assignments received and registered at the Company's Branch Offices in Glasgow, Edinburgh, and Dublin.

THE SCOTTISH UNION INSURANCE COMPANY was instituted in 1824, and is Incorporated by Royal Charter, and Empowered by Act of Parliament. It is composed of a very numerous, wealthy, and influential body of Proprietors, and affords the most unquestionable security to the Public from the magnitude of its capital—a large proportion of which is invested in Government and real securities.

FIRE DEPARTMENT.

FOR INSURING PROPERTY AGAINST LOSS OR DAMAGE BY FIRE.

PROPERTY of almost every description may be secured against accidents arising from Fire, by the Payment of a small Annual Premium; and Risks involving more than ordinary hazard are moderately rated.

All Losses, when satisfactorily ascertained, are IMMEDIATELY PAID; and the Directors of this Incorporation confidently refer to the liberality and promptitude which have hitherto marked their settlement of claims.

The Progressive Increase of the Company's Fire business is shown in the following Table of the Duties paid to Government, and of the Sums Insured on Farming Stock (Free of Duty) for the years undermentioned:—

NO CHARGE IS MADE FOR POLICY STAMPS OR MEDICAL FEES.

POlicies are purchased by the Office; or Loans may be obtained upon them when their surrender value amounts to £20 and upwards.

If a party neglect to pay for the renewal of his policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling deduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to these advantages, the Directors adopt the principle of allotting a Bonus to Policies entitled to participate in Profits lapsing between the Quinquennial Periods of Division, at the rate of £20 per cent. on the aggregate amount of Premiums paid on each such Policy from the then last Quinquennial Division.

The Directors have always acted upon the principle that they are bound to receive the Renewal Premium upon a Policy any time within the thirty days' grace allowed, notwithstanding the death of the Life Insured.

The following Extract, from the LIST OF CLAIMS paid by the "PROVIDENT," is published with the sanction of the parties interested in the Policies, some of whom have accompanied their acknowledgment of the unexpected advantages with an earnest desire that the widest circulation may be given to the publication.

The Rates of Insurance are as liberal as in any safe and established office; and for risks not surveyed and rated under Tariff are as follows:—

COMMON INSURANCE,	-	-	-	-	-	-	-	-	1s. 6d. per cent.
HAZARDOUS,	-	-	-	-	-	-	-	-	2s. 6d. "
DOUBLY HAZARDOUS,	-	-	-	-	-	-	-	-	4s. 6d. "
FARMING STOCK,	-	-	-	-	-	-	-	-	5s. 0d. "

THE Society distributes its profits to the Shareholders and the Insured, under the control and disposition of the Board of Directors, at the termination of every Five Years' period, to be computed from Christmas, 1829.

The Society can challenge the most strict investigation into the management and general conduct of their business, and can appeal with certain confidence to all sufferers by fire, that their transactions with them have been marked by promptitude, equity, and a consideration, as well liberal as just, in the punctual discharge of all claims fairly made upon them.

Losses occasioned by Lightning are made good.

NO CHARGE FOR POLICIES WHEN REMOVED FROM OTHER OFFICES.

LIFE ASSOCIATION OF SCOTLAND,

FOUNDED 1838.

EMPOWERED BY ROYAL CHARTER AND ACT OF PARLIAMENT.

THE ASSOCIATION has now in operation two separate Schemes of Assurance.

THE ORIGINAL SCHEME—(CLASS A)

is expressly based on the principle of reducing the expense of Life Assurance as low as is consistent with permanent security, and offers the following, among other advantages:—

FREEDOM FROM RESTRICTIONS.—The Policies now being issued are unusually free from Restrictions (as commonly imposed by other companies) and confer important privileges. These relate to Non-payment of Premiums—Indisputability—Limits of residence and occupation—Military and Naval Services, &c.; and afford, in most cases, almost complete protection against forfeiture.

PROFIT SCHEME.—An Allocation of Profit is made *every year* to Participating Policy-Holders of five years' standing at the date of the preceding balance, and the Share of Profit is applied in reducing their next Premiums. Each Policy-Holder thus enjoys DURING HIS OWN LIFE his share of the Profit. The annual return of Profit to Policy-Holders of the first series has now attained to THIRTY-SEVEN AND A HALF PER CENT. of the Premiums; that is, a Policy-Holder whose Premium is £50 obtains this year a return of £18 15s., and another whose Premium is £20 obtains £7 10s.

HALF-CREDIT SYSTEM.—Policies of £500 and upwards may be effected and kept up by payment of only One-half the Premiums for the first six years, with interest on the other half. The first payments for Policies of £500 are thus only—Age 25, £5 15s. 1d.; Age 30, £6 11s. 3d.; Age 40, £8 11s. 1d. And for Policies of £1000, Age 25, £11 10s. 2d.; Age 30, £13 2s. 6d.; Age 40, £17 2s. 2d.

NEW SCHEME—(CLASS B).

UNCONDITIONAL ASSURANCE ON LIFE.

While the Policies of the Original Scheme have for many years been relieved of most of the imperfections which still adhere to Assurance Policies in general, the Association have now met the desire of late manifested in some quarters for a system of Life Assurance *still more simple and unconditional*, and have introduced a Scheme with this special view. The leading features of the Scheme are these:—

OMISSION to pay a premium by oversight does not affect the Assurance, and after a time, Payment may be intentionally Postponed for a year.

NO RESTRICTION is imposed as to Occupation or Residence.

NO EXTRA PREMIUMS can ever be payable.

The **ASSURANCE** is virtually Non-forfeitable and Unquestionable.

The **POLICY-HOLDER**, on surrendering his Policy, can withdraw a fixed and unusually large proportion of his Payments, or he may, in most cases, take a paid-up Policy for double the amount; or he may withdraw the same sum as a Loan, and still continue the Policy.

So **COMPLETE** and **SATISFACTORY** a system of Unconditional Assurance is not to be found in the arrangements of any other Assurance Office.

THE Rates of Premium charged by the County Fire Office are upon the lowest scale consistent with Security to the Insured.

When a Policy has existed for a period of Seven Years, a return of 25 per cent., or one-fourth of the amount of Premiums paid during that period, is declared upon such Policy.

The Returns paid to the present time amount to upwards of £257,370.

All Losses are settled with promptitude and liberality.

THE RIGHT HON. LORD KEANE, Stretchworth Park, Newmarket.
LORD CLAUDE HAMILTON, M.P., Eaton Square.

CHIEF OFFICES—429 STRAND, LONDON, W.C.
GLASGOW BRANCH—165 BUCHANAN STREET.

THE nature and amount of Security, and advantage to Share and Policy Holders in this Association is superior to that afforded by any other existing Insurance Institution, the whole Plans having been specially prepared by Dr. FARR, of the General Register Office, Somerset House, London, and recommended by him to the Government, with the view of rendering Life Insurance more popular, by remedying the defects of the old system.

The Association is now transacting a large amount of business in all parts of the Kingdom, and copies of the returns of Insurances effected are printed. The number of Shareholders is almost unprecedented, the names and addresses of several hundreds being given in the Prospectus, which contains much information valuable to Life Insurers, and to those having money to invest, and will be supplied on application to—

MEDALS AWARDED TO THOMAS GLOVER'S PATENT DRY GAS-METERS.

IT IS A REMEDY FOR ALL THE DEFECTS OF WET METERS.

A FEW OF THE MANY IMPORTANT ADVANTAGES SECURED BY THE PATENT DRY METER:—

FIRST.—It is an accurate measurer of Gas, and does not vary in its registration.
SECOND.—It prevents jumping of the lights, and sudden or unexpected extinction of the lights.
THIRD.—It can be placed in light and conspicuous positions, so that the Inspector, as well as the Consumer, can at all times obtain an exact knowledge of the amount of consumption. This gives confidence to the Consumer; the Inspector is no longer regarded with suspicion, and all unpleasant disputes are avoided.

FOURTH.—It does not require to be interfered with, or opened to put water into it, or removed; and thus those dangerous and fatal explosions are prevented, which too frequently occur, owing to the escape of Gas from Wet Meters.

FIFTH.—It cannot be tampered with and made to vary in its registration, without showing marks of injury on the outer case. Thus, Inspectors have no longer to contend with difficulties they cannot overcome, and frauds they cannot always detect.

SIXTH.—It may be fixed either above or below the level of the lights.

SEVENTH.—It works with less pressure, and economizes Gas.

EIGHTH.—It is more durable than Wet Meters, not being subject to the corrosive influence of water.

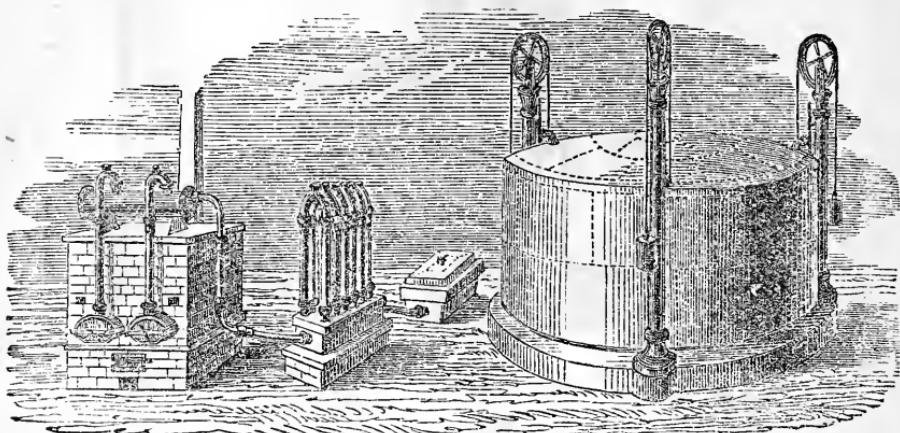

NINTH.—It is not affected by frost, and will not become stopped by freezing.

29 M'Pherson Street, off High Street,
 GLASGOW, May, 1861.

The COFFEE PLANT, "*Coffea Arabica*" of Linnaeus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its indeoendence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medical properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is liable to be dispersed, than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. MINTO's Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam-power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

THE attention of Oil and Colour Merchants, and others, is respectfully drawn to the above METALLIC CASKS and KEGS, as possessing strength, durability, lightness, cleanliness, and fitness for the several purposes to which they can be applied.

Being proof against changes of climate, leakage, evaporation, absorption, loss from negligent packing, &c., they are especially adapted for export, and possess advantages unknown in wooden vessels.

For the preservation of valuable and common Oils in MILLS and FACTORIES, the above Casks effect an important saving, and for such Establishments B. & Co. have made them with Glass Tube Gauges, so that the Stock on hand can always be ascertained at a glance.

ALEXANDER BROWN,

PATENTEE & MANUFACTURER OF
PATENT METALLIC CASKS, KEGS, &c.,
29½ & 31 GLOUCESTER ST., KINGSTON,
GLASGOW.

PATENT METALLIC CASKS & CISTERNS
for holding or shipping Oils, Turpentine, Naphtha,
Ammonia, Varnishes, &c.

PATENT METALLIC KEGS for White Lead,
Paint, Printers' Ink, Nails, Rivets, &c., &c.

PATENT METALLIC PAILS, MILL PANS,
SHIPS' BUOYS, TANKS for Bread and Water,
Railway and Carriage Foot-warmers, much recom-
mended to invalids, and to all that wish for comfort
in travelling.

Special attention is invited to A. B.'s improved
PATENTED METALLIC CASK, which is made in
Halves or Sections, that they may be packed one
inside the other (in some sizes 10 halves will pack in
the same size as one whole Cask), which is a great
saving in Freight when sent abroad empty for bring-
ing home oils, &c. They are so simple in their con-
struction, having only an elastic joint, that any one
can easily put them together when necessary.

The new Cylindrical Cask, with a movable end,
answers for exporting bottled Beer, or any other fine
goods, and bringing home oils, &c., on the return
voyage. The joint of these Casks when put together,
is perfectly air and fluid tight. They are also tinned
inside and out, which renders them proof against
changes of climate, leakage, and evaporation.

To West India, and other Colonial Merchants and
Proprietors, the use of the Patent Metallic Cask will
insure the arrival at their destination of every drop
of Oil, &c., shipped aboard. It is a well-known fact,
that the Importers of these valuable articles of com-
merce sustain a loss varying from 15 to 30 per cent.,
solely on account of the impossibility of rendering
wooden casks proof against evaporation and leakage;
in short, there is no department of domestic economy
in which the Patent Metallic Cask will not be found
serviceable, where strength, durability, fitness of pur-
pose, and cleanliness are matters of consideration.

They occupy less space than wooden ones holding
the same quantity.

Contracts taken and Estimates given for all kinds
of Gas-fittings and Plumbury work.

Samples and Price List may be had at the Works,
29½ & 31 GLOUCESTER STREET, KINGSTON,

DISHER'S DANDELION PILLS.

ALTHOUGH I cannot conscientiously offer them as a Specific in all Complaints, well knowing the absurdity of such pretensions in any one compound, still they will be found superior to every other Medicine, in respect to their gentle mode of action.

They are a safe and valuable remedy for Bilious Complaints, and pain in the Stomach and Bowels; are completely calculated for those whose bowels are habitually slow, and consequently require the use of laxatives; and are well adapted for general FAMILY USE, being purely of Vegetable Composition.

They form a most excellent remedy for Indigestion, Crudities in the Stomach, Loss of Appetite, Costiveness, and Headache (arising from Flatulency in the Stomach and Bowels), which generally attend those who lead sedentary lives. As a Female medicine they are invaluable, and surpass every other pill as a purifier of the blood. Diseases of the Kidneys, Liver, and Spleen, Jaundice, Dropsey, Skin Diseases, Wet and Dry Scurvy, Scald Heads in Children, &c., yield readily to their safe yet powerful health-restoring properties.

Sold in Boxes at 1s. 1½d., and 2s. 9d. each, including the Government Stamp, which to imitate is felony. Prepared only by

Letter [A] Machine.—This Sewing Machine is very differently arranged from any other, and is ornamented in the best style of art. It is designed to be enclosed, when desired, in a highly finished and richly decorated cabinet case. It is very popular as a Family Sewing Machine, especially in large household establishments where a considerable proportion of heavy work is to be done, as well as light sewing. For Shirt and Collar Manufacturers, Cloak, Mantle, and dressmakers, and light Manufacturing in general, these Machines justly deserve the commendation which they are receiving on every hand.

Owing to the demand for our celebrated Sewing Machines being far greater than the supply, we have recently increased our manufactory in New York four-fold. The facilities which we now have for manufacturing will enable us to turn out 130,000 Machines annually. With this great extension we hope to be able to supply the rapidly increasing demand. For domestic use, and all manufacturing purposes of every description, "Light or Heavy," these Machines are unquestionably the most perfect, most substantial, most durable, and most reliable SEWING MACHINES ever offered to the public. The superior merits of these Machines are well known to all the principal manufacturers in the United Kingdom. We have recently made valuable and important improvements, which still further advances the utility of our Machines far beyond those of any other manufacture. The stitching produced by these Machines cannot be unravelled or pulled out, both sides of the work being alike, which is not the case with many other Machines. Every Machine is thoroughly tested before leaving our Manufactory, and warranted perfect.—Send for SINGER & CO.'S GAZETTE, SENT GRATIS.

Silk Twist, Thread (on Spools), Needles, Oil, Binding and Hemming, Guages of all sizes, and all articles required for the use of our machines.
